RE: Condition of Approval for Extension  
Section 30 Recycling Containment and Facility #3RF-3  
July 9 – August 5

NMOC  
AUG 17 2018  
DISTRICT III

CS 8/17/18

Dear Mr. Perrin,  
Pursuant to Order R-14314, WPX submitted a C-103 for a 6-month extension request for cessation of operations on August 23, 2017, for the Section 30 Recycling Containment and Facility (#3RF-3) located in Section 30, Township 31N, Range 5W, Rio Arriba County, New Mexico. Approval of the 6-month extension was granted by Director David Catanach on August 25, 2017. Conditions of Approval (COA) of the C-103 are listed below. This report is being submitted to satisfy the monthly report requirement.

### 1.0 Conditions of Approval

Approval of the extension was granted with the following COA:

- 1) Take necessary actions to keep fresh water accumulation within the containment to a minimum and prevent damage from freezing.
- 2) Inspect and take photographs of the Facility weekly.
- 3) In the event of leaks of damage to the Facility, the operator must do the following.
  - a. Notify OCD District III within 72 hours of knowledge of leaks or damage.
  - b. Submit a Corrective Action Plan (CAP) to repair leaks or damage within seven days of notification above.
  - c. Upon OCD's approval of the CAP, complete repairs per the OCD-approved schedule.
- 4) By the 15<sup>th</sup> of the month, submit monthly reports to OCD District III of inspection results with photographs and progress on CAP's if any.
- 5) Verify liner integrity before returning the containment to service.

### 2.0 Weekly Inspections

LOGOS continues to monitor the condition of the Section 30 Recycling Containment. Attached is a summary of weekly inspections conducted at the containment from July 9 – August 5. Also attached is a photograph log documenting site conditions during July 9 – August 5.

**Section 30 Recycling Containment and Facility  
July 2018 Monthly Report**

**3.0 Recent Event Summary**

- No new leaks have been discovered and previous repairs have held.
- A minimal amount of water was pumped from leak detection between the weeks of July 9 and August 5. Received rain 7/17/18, a higher volume was pumped from the leak detection on 7/18/18.
- LOGOS personnel continue to search and inspect the liner for any potential areas of concern along the base of the containment and is gathering information for next steps forward for the containment.
- Email received on 8/6/18 from Aztec OCD office requesting to add to monthly reports the measured volume that was removed from the leak detection during each pumping event.

This report was submitted on 8/16/18, extra time taken to gather additional information for draining leak detection information. The next report will be submitted to the Aztec office by September 14, 2018. For additional information or questions regarding current site conditions, please contact me at 505-324-4145.

Sincerely,

Tamra Sessions  
Regulatory Specialist

COMMENTS: (include water quality, odor, color, etc.)

leak detection is still the same getting 2 to 3 inches in a min and half all else ok

leak detection is still the same.put 2 inches of fluid in a 5 gallon bucket in 1 min than pump shut down on low flow

leak detection has not changed this week

havent received any extra moisture--water is the same--Leak detection hasn't changed, 2 to 3 incnes in a 5 gallon bucket in 1 minute and 30 seconds--pump shut down on low flow

ADDITIONAL OBSERVATIONS:

Been getting a little more water into the pond from the weather

been getting some weather, have a little more water in the pond

little more weather has put some water in the pond

no new moisture to report in the pond
