ADMINISTRATIVE ORDER DD-8 (SNSL)

Gentlemen:

Under the provisions of Rule 111 (C) and (D), Amoco Production Company made application to the New Mexico Oil Conservation Division on May 8, 1985, for permission to directionally drill and complete three wells shown on Exhibit "A"..

The Division Director Finds That:

(1) The application has been duly filed under the provisions of Rule 111 (D) of the Division Rules and Regulations;

(2) Satisfactory information has been provided that all offset operators have been duly notified;

(3) The applicant, Amoco Production Company, is the owner and operator of said wells, the unorthodox surface locations and orthodox bottomhole locations of which are listed on said Exhibit "A".

(4) The applicant seeks to directionally drill said wells to avoid the surface owner's cultivated fields.

(5) Said operator proposes to kick off at such a depth feasible to be within 50 feet of said bottomhole locations (See Exhibit "A").

(6) The acreage dedicated to said wells is shown on Exhibit "A".

(7) The applicant should be required to determine the subsurface location of the bottom of the hole by means of a continuous multi-shot directional survey conducted subsequent to said directional drilling, if said well is to be completed as a producing well.

(8) Approval of the subject application will prevent the drilling of unnecessary wells, avoid the augmentation of risk arising from the drilling of an excessive number of wells, and otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED THAT:

(1) The applicant, Amoco Production Company, is hereby authorized to directionally drill said wells listed on Exhibit "A" whose unorthodox surface locations and orthodox bottomhole locations are listed on said Exhibit "A".

(2) That said kick-off point should be adequate to penetrate the zone of interest within 50 feet of said bottomhole locations.

PROVIDED HOWEVER, that prior to the above-described directional drilling, the applicant shall establish the location of the kick-off point by conducting a continuous multi-shot directional survey of the well.

PROVIDED FURTHER, that subsequent to the above-described directional drilling, should said well be a producer, a continuous multi-shot directional survey shall be made of the wellbore from total depth to the kick-off point with shot points not more than 100 feet apart; that the operator shall cause the surveying company to forward a copy of the survey report directly to the Santa Fe office of the Division, P. O. Box 2088, Santa Fe, New Mexico 87501, and the operator shall notify the Division's Aztec District Office of the date and time said survey is to be commenced.

(3) Form C-105 shall be filed in accordance with Division Rule 1105 and the operator shall indicate thereon true vertical depth in addition to measured depths.

(4) That the acreage dedicated to said wells should be that as listed on Exhibit "A".

(5) Jurisdiction of this cause is retained for the entry of such further orders as the Division may deem necessary.

Application for Directional Drilling
Gallegos Canyon Unit No. 236R
SE/SE Section 14, T28N, R12W
San Juan County, New Mexico

Amoco Production Company hereby requests approval to directionally drill the Gallegos Canyon Unit No. 236R. The proposed surface location is 515' FSL x 770' FEL, Section 14, T28N, R12W. The proposed bottom hole location is 1850' FSL x 1190' FEL Section 14, T28N, R12W.

The reason the subject well is being deviated is to avoid the surface owner's cultivated fields.

A copy of this application is being sent by certified mail to the offset lease holders, Southland Royalty Company and Texaco, with the request that they furnish you a waiver of objection and return one copy of the same to me.

Sincerely,

Original Signed

ADMINISTRATIVE ORDER DD- 8 (SNSL)

Gentlemen:

Under the provisions of Rule 111 (C) and (D), AMOCO
PROD. CO. made application to the New Mexico Oil
Conservation Division on MAY-8-1985, for
permission to directionally drill and complete 3 WELLS
SHOWN ON ATTACHMENT "A"
EXHIBIT

The Division Director Finds That:

(1) The application has been duly filed under the
provisions of Rule 111 (D) of the Division Rules and
Regulations;

(2) Satisfactory information has been provided that all
offset operators have been duly notified;

(3) The applicant, AMOCO PROD. CO., is
the owner and operator of SAID WELLS, the EXHIBIT
UNORTHODOX surface locations of which ARE LISTED ON SAID ATTACHMENT
the LINE line and ARE feet from the "A"
line of Section _____, Township _____
Range _____, County, New Mexico.

(4) The applicant seeks to directionally drill said wells
by kicking off from the vertical at a depth of approximately _____
and drilling in such a manner to avoid the surface
owner's cultivated fields.

5.) Said operator proposes to kickoff at
such a depth feasible to be within
50' of said bottom hole locations
(see Attachment "A"). SAID KICKOFF

Application for Directional Drilling
Gallegos Canyon Unit No. 234E
NW/NW Section 14, T28N, R13W
San Juan County, New Mexico

Amoco Production Company hereby requests approval to directionally drill the Gallegos Canyon Unit No. 234E. The proposed surface location is 910' FNL x 790' FWL, Section 14, T28N, R13W. The proposed bottom hole location is 1600' FNL x 1850' FWL Section 14, T28N, R13W.

The reason the subject well is being deviated is to avoid the surface owner's cultivated fields.

A copy of this application is being sent by certified mail to the offset lease holders, Southland Royalty Company and Texaco, with the request that they furnish you a waiver of objection and return one copy of the same to me.

Sincerely,

Original Signed
W. J. Holcomb
