RE: Injection Pressure Increase
Mary Ann Cannon
Well No. 7
Chaves County, New Mexico

Dear Sir:

Reference is made to your request dated August 26, 1987, to increase the surface injection pressure on the above referenced well. This request is based on a step rate test conducted on the well on August 17, 1987. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

<u>WELL & LOCATION</u>	<u>MAXIMUM INJECTION SURFACE PRESSURE</u>
Mary Ann Cannon Well No. 7 Unit O, Section 27, Township 10 South, Range 25 East, Chaves County, New Mexico.	240 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

WILLIAM J. LEMAY
Director
