*RE: Injection Pressure Increase  
State "26" SWD No. 1  
Lea County, New Mexico*

Dear Mr. Baxter:

Reference is made to your request dated April 10, 1992, to increase the surface injection pressure on the State "26" SWD Well No. 1. This request is based on a step rate test conducted on the well. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well:

<u>WELL AND LOCATION</u>	<u>MAXIMUM INJECTION SURFACE PRESSURE</u>
State "26" SWD No. 1 Unit B, Section 26, Township 12 South, Range 32 East, NMPM	1150 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay  
Director
