Attention: Jim Brown

RE: Injection Pressure Increase
Pathfinder "AFT" Well No. 7
Eddy County, New Mexico

Dear Mr. Brown:

Reference is made to your request dated December 17, 1990, to increase the surface injection pressure on the Pathfinder "AFT" Well No. 7. This request is based on a step rate test conducted on the well on December 16, 1990. The results of the test have been reviewed by my staff and we feel an increase in injection pressure on the well is justified at this time.

You are therefore authorized to increase the surface injection pressure on the following well.

<u>WELL AND LOCATION</u>	<u>MAXIMUM INJECTION SURFACE PRESSURE</u>
Pathfinder "AFT" Well No. 7 Unit F, Section 21, T-10 South, R-27 East, NMPM, Eddy County, New Mexico.	1600 PSIG

The Division Director may rescind this injection pressure increase if it becomes apparent that the injected water is not being confined to the injection zone or is endangering any fresh water aquifers.

Sincerely,

William J. LeMay
Director
