RE: Commingling Permit
Kyte #4
API 30-025-33683

As we discussed on the phone August 17, 2000 I am sending a new application for downhole commingling on the new form C-107A. I have also attached the allocation breakdown. The other documents required for the application process you already have with the previous application sent. If you have any questions or comments please contact me at the number above at extension 134. Thank you for your prompt attention to this matter.

Sincerely,

April J. Carlson
Operations Technician
