Re: Previously Approved NMOCD Drilling Wells

The last time we E-Mailed/talked was 4/27/06 you sent me a status update below.

We have our dirt contractor building the two approved locations and a drilling rig will be moving in soon. Can you check these two wells below that were previously approved under the previous operator. We would like to continue working with this dirt contractor and not release him.

These were two wells that were pending review:

- (1) Carter Eaves "NCT" A #3 - 6K-24S-37E
Application was received on 3/31/2006 and is pending review.
- (2) Martin "B" #3 - 31C-24S-37E
Application was received on 3/31/2006 and is pending review.

We would like to start building locations if you do not see anything problem with these two wells.

**RE: Martin B No. 3 - Proposed Drilling to Jalamt Gas Pool
NE/4 NW/4, Unit C, Sec 31, T-24S, R-37E, Lea County, New Mexico
Re-Submitting NMOCD Previously Approved Drilling Location
NMOCD letter by Joe Ramey dated March 30, 1978
Administrative Application for Simultaneous Dedication,
Non-Standard Location, in Existing Non-Standard Proration Unit**

Dear Mr. Stogner,

Please find enclosed is a copy of previously approved NMOCD letter by Joe Ramey dated March 30, 1978 corresponding to the 156.19 acre **Martin B No. 3** (C-31-24S-37E) (Gas) proration unit, consisting of NW/4 Section 31, T-24S, R-37E Lea County, New Mexico, grants approval to simultaneously dedicate two Jalmat wells, to the subject existing 156.19 acre Jalmat (Gas) proration unit. The original well, the **Martin B No. 1** (F-31-24S-37E) in the NSP was originally open hole completed in Langlie Mattix Pool October 6, 1947, then later recompleted to the Jalmat Gas Pool January 1, 2002.

Thus, we hereby propose to **Re-Submit previously approved NMOCD letter by Joe Ramey dated March 30, 1978** for new approval corresponding to the new drilling application for the **Martin B No. 3**. Approval of the simultaneous dedication application will prevent waste, by allowing for the optimal recovery of remaining gas reserves while protecting our mineral rights, (including gas reserves from tighter Jalmat strata, within the Jalmat interval).

Also, please find enclosed an original and five copies of a new C-101 and C-102 corresponding to the new drilling application for the **Martin B No. 3** along with the C-144 and BOP diagram.

Notice of this administrative application has been sent by mail to the applicable diagonal and adjacent offset Jalmat operators, which are attached.

We thank you for your thoughtful review of this matter as we expect a drilling rig in the next few weeks.

Very truly yours,

PLANTATION OPERATING, LLC
