Mr. L.A.Hanson  
New Mexico Oil Conservation Commission  
Carper Building  
Artesia, New Mexico

Dear Sir:

This is to ask your permission to drill the Mesa Retailers, Inc., State #2, in Unit B, which I desire to drill 430 feet from the North Line and 2010 feet from the East Line in Section 36-16S-26E, due to the following condition:

*9000' test.*

A center of the 40 location will create an undue hardship and expense because of the fact that said location would fall on a tract of land that is cultivated and under irrigation. The footage set out above will cause the location to fall on a portion of the land not under cultivation and not under irrigation as it is in the edge of some lowlands which cannot be used other than for grazing. The location desired would thus create a very small amount of damage as compared to that which would be caused by staking same on the active farm land.

Very truly yours,

Mesa Retailers, Inc.

Santa Fe, New Mexico

ATTENTION: Mr. A. L. Porter, Jr.

Dear Sir:

We have no objection to the proposed location of the well to be drilled by Mesa Retailers, Inc., 430 feet from the North line and 2,010 feet from the East line, of Section 36, Township 16 South, Range 26 East.

We are the owners of the offset acreage to the North.

Yours very truly,

R. R. WOOLEY

This is the location I mentioned to you on the phone a few days ago.

Bill Macey gave R. R. Woolley an OK for the same type of location in this area by letter dated March 29, 1956 addressed to J. L. Briscoe if you want to check on it, also a letter attached to this application from R R woolley
