El Paso Natural Gas Company
P. O. Box 997
Farmington, New Mexico

Administrative Order NSL-110

Attention: Mr. E. J. Cool

Gentlemen:

Reference is made to your application for approval of an unorthodox well location for your San Juan 32-9 Unit, Well No. 50, to be located 550 feet from the North line and 1150 feet from the East line and in the NE/4 NE/4 of Section 25, Township 32 North, Range 10 West, Blanco Mesaverde Gas Pool, San Juan County, New Mexico.

It is our understanding that this unorthodox well location is based upon extreme topographic conditions in the NE/4 of said section.

Inasmuch as there are no other effected offset operators, it is possible for immediate approval to be granted. Therefore, by authority granted me under provisions of Section 1 (c) of the Special Rules and Regulations of the Blanco Mesaverde Gas Pool, as set forth in Order R-110 as amended by Order R-397, you are hereby granted an exception to Section 1 (c) of Order R-110 for the above described unorthodox well location. You must also obtain like approval from the U. S. Geological Survey.

Very truly yours,

A. L. PORTER, JR.
Secretary-Director

Attention: Peggy Bradfield

Administrative Order NSL-110-A

Dear Ms. Bradfield:

Reference is made to your application dated June 9, 1998 for an exception to the well location requirements provided within the "Special Rules and Regulations for the Blanco-Mesaverde Pool," as promulgated by Division Order No. R-10987, for a non-standard Blanco-Mesaverde infill gas well location in an existing standard 296.82-acre stand-up gas spacing and proration unit for the Blanco-Mesaverde Pool comprising Lots 1, 2, 7, 8, 9, 10, 15, and 16 (E/2 equivalent) of Section 25, Township 32 North, Range 10 West, NMPM, San Juan County, New Mexico. This unit is currently dedicated to Burlington Resources Oil & Gas Company's San Juan "32-9" Unit Well No. 50 (API No. 30-045-11293), located at a previously approved unorthodox gas well location (see Division Administrative Order NSL-110, dated July 8, 1957) 550 feet from the North line and 1150 feet from the East line (Lot 1/Unit A) of Section 25.

The application has been duly filed under the provisions of Rules 104.F and 605.B of the Rules and Regulations of the New Mexico Oil Conservation Division ("Division").

By the authority granted me under the provisions of Division Rule 104.F(2), the following described well to be drilled at an unorthodox infill gas well location in Section 25 is hereby approved:

San Juan "32-9" Unit Well No. 50-A
1415' FSL & 590' FEL (Lot 9/Unit I)

Further, both of the aforementioned San Juan "32-9" Unit Well Nos. 50 and 50-A and existing gas spacing and proration unit will be subject to all existing rules, regulations, policies, and procedures applicable to prorated gas pools in Northwest, New Mexico.

Sincerely,

Lori Wrotenbery
Director
