

**JOHN W. PEERY**

OIL PRODUCER  
P. O. BOX 655  
ODESSA, TEXAS

July 7, 1958

New Mexico Oil Conservation Commission  
P.O. Box 871  
Santa Fe, New Mexico

Dear Sir:

J. W. Peery hereby petitions the New Mexico Oil Conservation Commission for administrative approval to dual complete his Hardy #2 well as a gas well in the Blinebry Gas Pool and as an oil well in the Drinkard Oil Pool, administrative approval of an unorthodox location, and to establish an eighty (80) acre Non-Standard Gas Proration Unit as provided in Order B-610, dated April 11, 1955, and in support thereof states as follows:

- NSL-153 - Done  
(on waiting period)  
July 27, 1958*
- (a) The J. W. Peery lease contains 80 acres. This land is described as follows:  
S/2 SE/4 of Section 19, T-21-S, R-37-E, NMPM,  
Lea County, New Mexico.  
The attached Exhibit "A" shows the location of this well on J. W. Peery Hardy Lease together with the location of offset wells. The attached Exhibit "B" shows a diagrammatic sketch of the proposed dual completion.
- (b) Well #2 is located 330' West of East line and 430' North of South line of Section 19, T-21-S, R-37-E. At present this well is producing from the open hole interval 6596'-6675' in the Drinkard Formation in the Drinkard Oil Pool. Subject well has 5½" casing set at 6596' cemented W/475 sacks.
- (c) That applicant proposes to dually complete the well in the following manner:
- (1) Perforate the 5½" casing within the approximate intervals of 5594'-5935' in the Blinebry Formation in the Blinebry Gas Pool.
  - (2) Set production type packer below these perforations at approximately 6550' to separate the two pay zones.
  - (3) Produce the Drinkard Pool oil through the tubing and the Blinebry gas through the tubing casing annulus.
- (d) That the granting of this application for permission to produce the well as a dual completion with gas from the Blinebry and oil from the Drinkard is in the interest of conservation and the protection of correlative rights.

- (e) That applicant will comply with all rules and regulations of the New Mexico Oil Conservation Commission to maintain separation of production from the two pay zones.
- (f) That the manner and method of the proposed dual completion is mechanically feasible and practical.
- (g) That by copy of this letter of application, all offset operators are notified of the proposed dual completion by registered mail. *Notice*

Therefore, J. W. Peery requests that the Oil Conservation Commission grant permission to the applicant to dually complete the subject well as proposed in this application.

I hereby certify that the information given above is true and complete to the best of my knowledge.

Very truly yours,

*J. W. Peery*  
J. W. Peery  
Owner & Operator

Sworn to and subscribed before me this the 7th day of July, 1958.

My commission expires June 1, 1959
