Administrative Order NSL-164

Gentlemen:

Reference is made to your application for approval of an unorthodox location for a well to be drilled at a point 740 feet from the South line and 790 feet from the East line and in the SE/4 SE/4 of Section 18, Township 29 North, Range 13 West, undesignated Pictured Cliff Gas Pool, San Juan County, New Mexico.

It is our understanding that this unorthodox well location is based upon extreme topographic conditions in the SE/4 of said section.

Inasmuch as you furnished waivers from the offset operators, it is possible for immediate approval to be granted. Therefore, by authority granted me under provisions of Rule 104(f) of the Commission Rules and Regulations, you are hereby granted an exception to Rule 104(2) of the Commission Rules and Regulations for the above described unorthodox well location. You must also obtain like approval from the U. S. Geological Survey if the well is located on land subject to the jurisdiction of the U. S. Geological Survey.

Very truly yours,

A. L. PORTER, Jr.,
