Re: Permit to drill Hawaiian-New
Mexico Oil Ventures #1, SW $\frac{1}{4}$ NW $\frac{1}{4}$,
Sec. 27, T.7N., R.4W., Valencia
County, New Mexico.

Attn: Mr. Otto Cooley

Gentlemen:

Hawaiian-New Mexico Oil Ventures, a Limited Partnership, respectfully requests permission to drill a well which is an exception to Rule 104 in the southwest quarter of the northwest quarter of section 27, township 7 north, range 4 west, Valencia County, New Mexico. This location as set out by survey is 51 feet east of the west line and 1530.5 feet south of the north line of the above described section.

A reason for the request of exception to Rule 104 has to do with the surface conditions which make locating the rig and pits elsewhere nearby impossible.

An additional reason for the request of exception to Rule 104 has to do with geological indications. As evidenced by the enclosed letter from Paul Blackman, record owner of the offset lease, it is the desire of those concerned to locate the requested location as close as practical to an old well drilled from 1925-1931 with cable tools which had gas shows. The indicated shows with today's methods of completion should make a commercial well. A commercial well in this area would be of material benefit to the State of New Mexico.

JOSEPH MASSAGLIA, JR., PRESIDENT

TELEPHONE 3-7782

Enclosed is the required bond, One-Well Bond Form 39-B1, handled by Werntz agency, Inc., 118 Jackson N.E., Albuquerque, New Mexico.

Enclosed is a letter from Paul Blackman, record owner of the offset lease giving permission for exception to Rule 104 dated October 27, 1958.

Enclosed are four Form C-128 which I hope are properly filled out. I was asked for three forms filled out.

Enclosed are four certified well location plats by C. H. Cole, New Mexico Registered Professional Engineer and Land Surveyor No. 601.

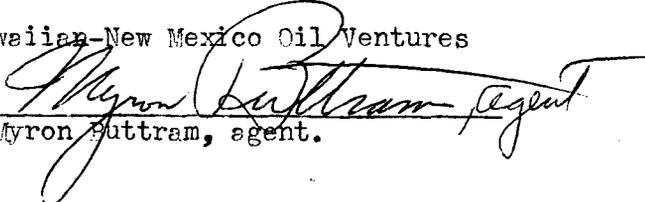

I hope, from my recent trip to see you that the enclosed forms and letters cover your requirements for a permit to drill the requested location.

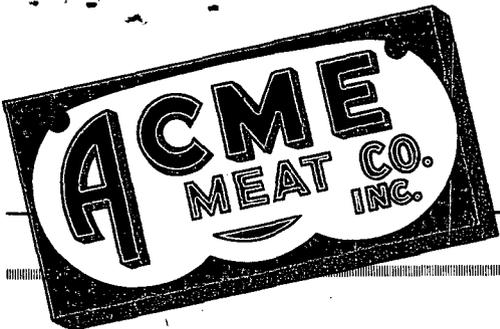

Your earliest attention would be appreciated as arrangements have been completed for the commencement of this well.

At this time, address any correspondence to Hawaiian-New Mexico Oil Ventures, Attn: Myron Buttram, agent, to La Hacienda Court, 6214 Central Ave. S. W., Albuquerque, New Mexico.

Sincerely,

Hawaiian-New Mexico Oil Ventures

by  agent.
Myron Buttram, agent.

12 Northwest Tenth Street
Oklahoma City, Oklahoma

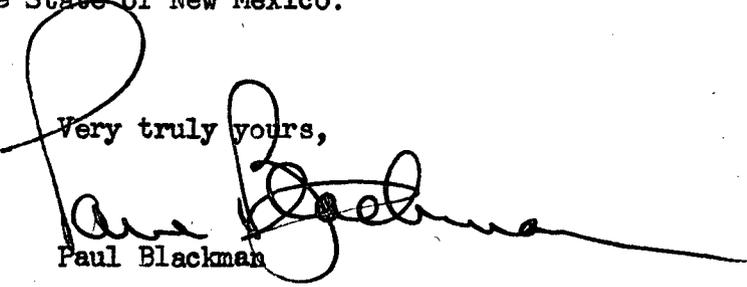

Dear Mr. Buttram:

I am the record owner of a Federal Oil and Gas Lease covering among other lands, Section 26, Township 7 North, Range 4 West, Valencia County, New Mexico.

You have informed me that you are the owner of an Oil and Gas Lease covering among other lands Section 27, Township 7 North, Range 4 West, Valencia County, New Mexico; that you contemplate drilling a well in Section 27 and because of certain surface advantages you wish to drill the well 51 feet west of the East line and 1530 feet South of the North line of Section 27, Township 7 North, Range 4 West, Valencia County, New Mexico, instead of the usual location as prescribed in the spacing requirements of the Oil Conservation Commission of the State of New Mexico.

This letter is to advise you that I have no objections to your drilling a well 51 feet west of the east line and 1530 feet south of the North line of Section 27, Township 7 North, Range 4 West, Valencia County, New Mexico, and this letter is your permission to so drill at the location described above, subject to the approval of the Oil Conservation Commission of the State of New Mexico.

Very truly yours,

Paul Blackman
