(Waiver)

Mr. A. L. Porter, Secretary and Director
New Mexico Oil Conservation Commission
Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

This is a request for administrative approval for an unorthodox gas well location in the Cavalin Pictured Cliffs Pool Extension.

It is intended to locate the well, El Paso Natural Gas Company Federal No. 3-1-D, 600 feet from the South line and 800 feet from the West line of Section 3, Township 25 North, Range 2 West, N.M.P.M., Rio Arriba County, New Mexico.

The Southwest quarter of Section 3 is dedicated to the well. Essentially, the entire dedicated acreage is covered with rocky bluffs rising to a high mesa. The only accessible land for a well is in the southwest of the dedicated acreage, thus making the location unorthodox. It is, therefore, planned to make the location unorthodox in order that the extremely high cost of constructing an orthodox location be avoided.

Since El Paso Natural Gas Company has control of the offset leases, approval for an unorthodox location has not been sought from other operators.

I am enclosing two copies of the certified well location plat and two copies of the intention to drill.

Yours very truly,

E. S. Oberly,
Division Petroleum Engineer

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

It is intended to drill a well thru the Pictured Cliff formation using rotary tools & to perforate and water fracture possible producing zones. Est. T. D. 3793'

Casing Program:

8 5/8" at 120' with 125 sacks regular cement circulated to surface.
5 1/2" at 3793' with 75 sacks regular cement, 75 sacks Pozmix.

The SW/4 of Section 3 is dedicated to this well.

SW/4: EN 01397

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
