Gentlemen:

Gulf Oil Corporation hereby makes application for adminis-
trative approval for an unorthodox well location for the producing
well of a non-standard gas proration unit comprising NE/4 of Section

your office on April 4, 1959, and in support thereof states the

The well was re-entered on April 21, 1958, and was recompleted as a gas well August 20, 1958, in the Jalmat Gas Pool.
- (3) The unorthodox well location will meet the requirements of Rule 3 of the Oil Conservation Commission Order R-520 as follows:
 - (a) The Vinson-Ramsay "A" Well No. 2 was drilled prior to issuance of Order R-520, and the request for an unorthodox location is sought under provisions of Rule 3 of this order.

- (b) By copy of this letter of application, all operators within 1980 feet of the well are notified by registered mail of the intent of Gulf Oil Corporation to obtain an unorthodox location and are requested to make any objections thereto known to the Commission within twenty days. (See attached affidavit.)
- (4) The approval of this application for an unorthodox location will, in the opinion of the applicant, prevent waste, protect correlative rights, and serve the best interest of conservation.

Respectfully submitted,
