Re: Request for Administrative Approval
of Unorthodox Well Location in the
Totah-Gallup Oil Pool for Aztec-
Hagood #11-G as an Exception to Rule
104(c).

Dear Mr. Porter:

Pursuant to Rule 104(f), Aztec Oil & Gas Company hereby submits, in triplicate, its application for administrative approval of an exception to the well location regulations set forth in Rule 104(c).

In support of this application, Applicant respectfully states and shows the following:

1. The proposed unorthodox drilling location has been staked one thousand and twenty feet (1020') from the North line and one thousand nine hundred eighty feet (~~1980'~~ ¹⁸⁹⁰) from the East line of Section 34, T-29-N, R-13-W, N.M.P.M., and this unorthodox location is necessitated by topographical conditions.

2. The ownership of all oil and gas leases within a radius of 790 feet of the proposed location is common with the ownership of the oil and gas leases under the proposed location, Applicant holding the entire section under lease.

3. Applicant intends to drill a well on the unorthodox drilling location to be known as the Hagood No. 11-G to an approximate depth of five thousand six hundred and fifty feet (5,650') and expects to complete it as an oil producer.

Mr. A. L. Porter

-2-

November 17, 1960

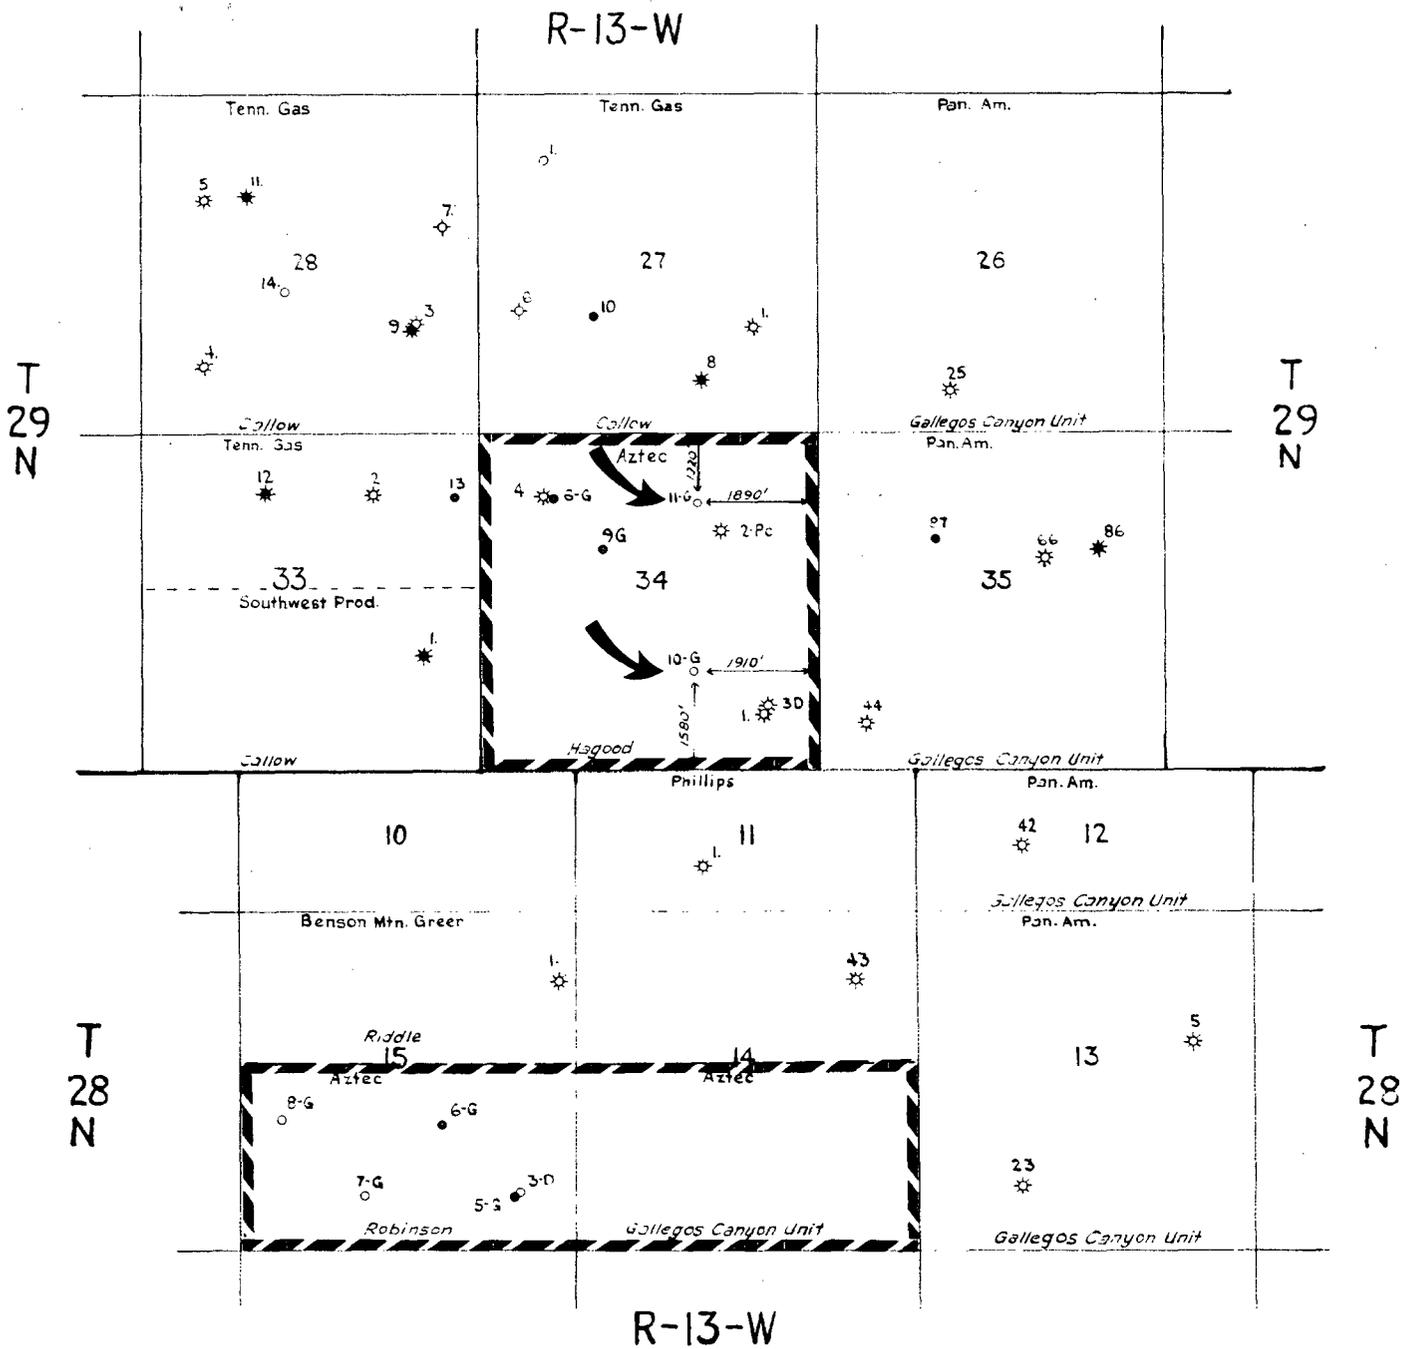

Applicant respectfully requests that the Secretary-Director of the Commission, by administrative approval, grant exception, as above provided, without notice and hearing, approving the unorthodox drilling location set forth above.

Yours very truly,

AZTEC OIL & GAS COMPANY

Attention: Mr. Kenneth A. Swanson

Gentlemen:

Reference is made to your application for administrative approval of an unorthodox location for your Hagood Well No. 11-G in the Totah-Gallup Oil Pool.

Inasmuch as your application states that the well is 1980 feet from the East line of Section 34 and the plat shows the well to be 1890 feet from the East line, we need to know which is correct prior to entering the order.

Very truly yours,

OLIVER E. PAYNE

Re: Request for Administrative Approval
of Unorthodox Well Location in the
Totah-Gallup Oil Pool for Aztec-
Hagood #11-G as an Exception to Rule
104(c).

Dear Sir:

Thank you for your letter of November 22, 1960 pointing out the discrepancy in our Application for Administrative Approval of an unorthodox location for our Hagood No. 11-G in the Totah-Gallup Oil Pool.

Please be advised that the location of the well is 1890 feet from the East line of Section 34, as indicated on the plat, rather than 1980 feet from the East line as stated in the Application. Please make this correction on our Applications.

Yours very truly,

Kenneth A. Swanson
