Dear Mr. Porter:

Please find enclosed herewith Application of La Plata Gathering System, Inc., for an exception to Commission Rule Number 104(d)(2). We have attached to such Application, as Exhibit "C", consents executed by Frank A. Schultz, J. Glenn Turner, William G. Webb, and Benson-Montin-Greer Drilling Corp. It is our understanding that the only other affected offset operator, Pan American Petroleum Corporation, mailed its consent to such unorthodox location directly to you.

Thanking you in advance for your expeditious attention to this Application and with best wishes, I am

Yours very truly,

SECTION 26, TOWNSHIP 32 NORTH, X

CASE NUMBER _____

TO THE HONORABLE OIL CONSERVATION COMMISSION
OF THE STATE OF NEW MEXICO:

Comes now LA PLATA GATHERING SYSTEM, INC., as Unit Operator of the San Juan 32-5 Unit Area, and respectfully requests an exception to Rule 104(d)(2) for an unorthodox location for a well to be drilled to the Dakota Formation at a location nine hundred feet (900') from the North line and twenty-four hundred and fifty feet (2450') from the West line of Section 26, Township 32 North, Range 6 West, N.M.P.M., Rio Arriba County, New Mexico, and, for cause, would show as follows:

I

As the Commission may be advised, a substantial portion of the S/2 of Section 26, Township 32 North, Range 6 West, lies below an elevation of sixty-one hundred feet (6100') and will be inundated or subject to inundation by the waters of the Navajo Dam on the San Juan River. Accordingly, in order to drill a well in the W/2 of said section, the same must be located in the NW/4 of said section. The San Juan 32-5 Unit No. 1-26, a Mesaverde single completion, is located nine hundred and fifty feet (950') from the North line and eighteen hundred and fifty feet (1850') from the West line of Section 26. It is

desirable to drill the Dakota well at least five hundred feet (500') from the Mesaverde well to avoid contamination of the Mesaverde formation through the fracture system created in completion of the San Juan 32-5 Unit No. 1-26. Due to topographic conditions in the NW/4 of said section, an orthodox location five hundred feet (500') from the Mesaverde well would necessitate an unconscionable expenditure of money in order to prepare the necessary location. A plat of the proposed location is attached hereto as Exhibit "A". A plat of the area showing the topographic conditions present is attached hereto as Exhibit "B".

II.

Attached hereto as Exhibit "C" is a consent in writing from all owners of oil and gas leases lying within a radius of seven hundred and ninety feet (790') from the proposed location, said owners being J. Glenn Turner, Frank A. Schultz, William G. Webb, Benson-Montin-Greer Drilling Corp., and Pan American Petroleum Corporation.

Premises considered, the undersigned, as Operator of the San Juan 32-5 Unit Area, respectfully requests the Secretary of the Commission to grant an exception to the well location requirement of Rule 104(d)(2) without notice or hearing pursuant to the authority granted by the Commission's Rule 104(f).

Respectfully submitted,

LA PLATA GATHERING SYSTEM, INC.

Vice President
