Mr. A. L. Porter
New Mexico Oil Conservation Commission
P. O. Box 871
Santa Fe, New Mexico

Dear Mr. Porter:

As provided for in Order No. R-179^A3, Rule 4B covering the Escrito-Gallup field, Val R. Reese & Associates, Inc. request administrative approval to drill their #2-25 Mesa well on an unorthodox location. The #2-25 Mesa well will be a Gallup completion located 390 feet from the east line and 1850 feet from the south line of Section 25, T-24N, R-7W, Escrito-Gallup field, Rio Arriba County, New Mexico.

The unorthodox location is requested because of the extreme topographic conditions in the area west of the proposed location. Val R. Reese & Associates, Inc. are offset operators of all of the acreage surrounding this well.

Very truly yours,

Morris B. Jones

The elevation of the derrick-floor above sea level is **6876** ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

Plan to drill 12-1/2" hole to 200' and run 8-5/8" casing cemented with 125 sacks cement. Drill 7-7/8" hole to approximately 5800' to test Gallup. Run 4-1/2" casing cemented with 150 sacks at total depth. Perf. and SWF Gallup formation.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
