Attention: Mr. J. E. Kaptonia

Re: PR-4 Exception to Rule 2 of  
the Special Rules and Regulations  
for the Blinebry Gas Pool, Lea  
County, New Mexico, for Sunray  
DX Oil Company's D. Hardy No. 3.

Gentlemen:

Sunray DX Oil Company respectfully requests that administrative approval be granted for the completion of D. Hardy No. 3 in the Blinebry Gas Pool, Lea County, New Mexico, as an exception to Rule 2 of the Special Rules and Regulations for the Blinebry Gas Pool as established under Order R-1670.

This well is located 2310' from the North line and 330' from the East line of Section 29, Township 21 South, Range 37 East, Lea County, New Mexico. This well was originally completed in January, 1950, in the Abo, and since that time, unsuccessful completions have been attempted in the Penrose Skelly and Eumont Gas zones.

An exception to Rule 2 is required since this well was drilled in 1949 at a location 2310' from the North line and 330' from the East line of the Section, whereas Rule 2 requires that each well shall be drilled not closer than 660 feet to any boundry line of the tract. Under Rule 3, the Director of the Commission has the authority to grant exceptions to the requirements of Rule 2 without notice and hearing where application has been filed and the necessity for the unorthodox location is occasioned by the recompletion of a well previously drilled to another horizon.

As required by Rule 3, the following operators have been notified by mail this date, by copy of this letter and the attached plat.
