ATTENTION: Mr. A. L. Porter

Dear Mr. Porter:

Walter Duncan proposes to drill a test to be located 1310' from the north line and 330' from the west line of Section 7, Township 29 North, Range 16 West, San Juan County, New Mexico. Enclosed for your information is a photocopy of the well location plat prepared by Mr. Frederick H. Reed, Registered Land Surveyor.

We realize this is an irregular location; however, we request administrative approval to drill the location as staked because of topographic reasons: The location is 18' from a steep cliff going down to the San Juan River, and in order to effectively test as an offset to our producing Walter Duncan, North Hogback 12, Well No. 1, this is the best geographic location we could arrive at. Walter Duncan is also the owner of the leases adjoining to the north and to the west. For your information we have also prepared and enclose here-with a plat showing the proposed location, the river and the cliff.

We would very much appreciate your early and favorable consideration of this matter. Please call us if there is any question with which we may be able to help.

Yours very truly,

WALTER DUNCAN

NEW MEXICO OIL CONSERVATION COMMISSION
WELL LOCATION AND ACREAGE DEDICATION PLAT

Form C-102
Supersedes C-128
Effective 1-1-65

All distances must be from the outer boundaries of the Section.

Operator Walter Duncan		Lease North Hogback 7		Well No. 2
Unit Letter	Section 7	Township 29 N	Range 16 W	County San Juan
Actual Footage Location of Well: 1310 feet from the North line and 330 feet from the West line				
Ground Level Elev: 5030	Producing Formation	Pool	Dedicated Acreage: Acres	

1. Outline the acreage dedicated to the subject well by colored pencil or hachure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

Yes No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually been consolidated. (Use reverse side of this form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, forced-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.
