Due May 19

Mr. A. L. Porter, Jr., Secretary-Director
New Mexico Oil Conservation Commission
P.O. Box 2088
Santa Fe, New Mexico 87501

Dear Mr. Porter:

As operator of the Northeast Blanco Unit we are requesting administrative approval for an unorthodox well location to be completed in the Mesaverde Zone.

We intend to drill the Northeast Blanco Unit Well No. ⁶³~~5Y~~, located 2180' from the South Line and 890' from the West Line of Section 13, T-30-N, R-8W, N.M.P.M., San Juan County, New Mexico.

After an unsuccessful attempt at remedial work our Northeast Blanco Unit Well No. 5X, located 1190 feet from the South Line and 1100 feet from the West line of Section 13, T-30-N, R-8W, San Juan County, New Mexico, was plugged and abandoned on February 26, 1974.

Well No. 5Y is a replacement for Well No. 5X. Due to the limited surface area available at the old location and the enormous amount of water produced from the Mesaverde Zone during the remedial work, we believe it advantageous to move the new location as far away as possible. Well No. ⁶³~~5Y~~ would be approximately 250 feet less elevation realizing a savings on three strings of tubular material.

The offset acreage to the West is operated by El Paso Natural Gas Company, P.O. Box 990, Farmington, New Mexico 87401, who will be notified by letter of Blackwood & Nichols Company's request for authority to drill on the unorthodox location.

Very truly yours,

BLACKWOOD & NICHOLS COMPANY

Mr. A. L. Porter, Jr., Secretary-Director
New Mexico Oil Conservation Commission
P.O. Box 2088
Santa Fe, New Mexico 87501

Dear Mr. Porter:

We requested by letter, dated April 25, 1974, administrative approval for an unorthodox well to be located 2180' from the South Line and 890' from the West Line of Section 13, T-30N, R-8W, N.M.P.M., San Juan County, New Mexico and received approval by administrative order NSL-662 dated, May 20, 1974.

However, this location was rejected by the United States Bureau of Land Management as being too near New Mexico State Highway No. 511.

We request that administrative order NSL-662 be set aside and approval for a different location, to be known as Northeast Blanco Unit No. 63, located 350' from the South Line, 1890' from the West Line, Section 13, T-30N, R-8W, San Juan County, New Mexico, be granted.

The offset acreage will not be affected by this location.

Very truly yours,

BLACKWOOD & NICHOLS COMPANY

To Mr. J. E. Kapterna

o c c

Santa Fe.

Gentlemen:

I have examined the application dated 4-25-74

for the Blackwood & Nichols Northeast Blanco Unit #63
Operator Lease and Well No. S-T-R

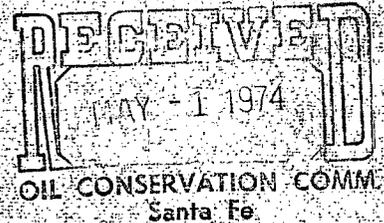

and my recommendations are as follows:

* On original application number was given as 5-4. Operator has
changed number to #63 at Commission's request. I have visited location
on ground & believe non-standard location is justified & I
recommend approval in the absence of objection by the
offset operator.

Yours very truly,

Cecily C. [Signature]

Farmington, New Mexico 87401

Attention: Mr. P. T. McGrath;

Dear Mr. McGrath:

We have been informed by the New Mexico Oil Conservation Commission that a replacement well number cannot be designated by a "Y" following the number.

Our application for permit to drill (Form 9-331C), dated 4-22-74, indicates the well number as Moreast Blanco Unit Well No. 5Y, located 2180' F/SL - 890' F/WL, Section 13, T-30-N, R-8W, San Juan County, New Mexico. Please change this well number to "63".

Very truly yours,

BLACKWOOD & NICHOLS COMPANY
