Re: BOLIN OIL COMPANY
Candado #15
D - Sec. 25 T26N R7W

Dear Mr. Ramey:

As provided in Rule 104-F, we are requesting an exception to the location requirement of Rule 104-C II (b) for the above captioned well to be located 640' FNL and 630' FWL of Section 25.

The well is proposed to be a South Blanco Pictured Cliffs and Otero Chacra dual completion.

The reason for the non-standard location is because of topographical conditions and the excessive cost of constructing a standard location.

The attached copy of a USGS topography map shows the general situation.

We would appreciate a reply at your earliest convenience as we would like to start this well before bad weather sets in.

Very truly yours,

F. P. Crum, Jr., agent
