Dear Sir:

As discussed between you and J. D. Mussett this date, attached is copy of a letter directed to Shell Oil Company, offset operator on Central Drinkard Unit No. 403; Wiser Oil Company, offset operator on Central Drinkard Unit Nos. 403, 404, and 405; and W. B. Yarborough, offset operator on Central Drinkard Unit No. 405. Please note that we requested the waivers of objection be sent direct to you.

Attached are copies of certified mail receipts for your information.

If further information is needed, please advise.

Yours very truly,

C. D. Borland

Gentlemen:

Attached are copies of Gulf's applications for unorthodox locations on the subject wells, together with a plat showing the area involved.

In order to expedite handling of these applications by the New Mexico Oil Conservation Commission, it would be appreciated if you would sign and mail direct to the Commission one copy of the attached waiver. Enclosed is a self-addressed, stamped envelope for your convenience.

Yours very truly,

A handwritten signature in cursive script that reads "C. D. Borland".

Re: Application of Gulf Oil
Corporation for an Unorthodox
Location, Drinkard Pool, Lea
County, New Mexico.

Mr. J. D. Ramey
New Mexico Oil Conservation Commission
Post Office Box 2088
Santa Fe, New Mexico 87501

Dear Sir:

Gulf Oil Corporation respectfully requests your Administrative approval to drill a development well in the Drinkard Pool at an unorthodox location. It is proposed to Drill Central Drinkard Unit Well No. 403, located 330' from the South line and 1305' from the West line of Section 33, Township 21-S, Range 37, East, Lea County, New Mexico as shown on the attached plat. The following facts are submitted in support of this application.

1. Commission Order No. R-5030 established procedures for completing additional Central Drinkard wells as a result of a Hearing held May 14, 1975. (Case No. 5474).
2. This unorthodox location is necessitated by reservoir considerations. In order to proceed with development of the Upper Drinkard gas pay, to prevent drainage of the Unit area by offsetting wells and avoid interference with the existing waterflood of the oil zone, which is necessary for the prevention of waste, this well must be located as shown on the attached plat.
3. This location is not closer than the standard location distance of 330' to the Unit boundary.
4. Commission forms C-101 and C-102 have been submitted to the Hobbs District Office of the New Mexico Oil Conservation Commission.

Yours truly,

By

Central Drinkard Unit Well No. 403
Lea County, New Mexico

Mr. J. D. Ramey, Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, NM 87501

Dear Sir:

Gulf Oil Corporation desires administrative approval from the Oil Conservation Commission to drill their proposed Central Drinkard Unit Well No. 403 at an unorthodox location in Lea County.

This development well in the Drinkard Pool is to be located 330' from the south line and 1305' from the west line of Section 33, Township 21-S, Range 37-E.

As an offset operator, Amoco Petroleum Company has no objection to this location and hereby waives notice and hearing.

Very truly yours,
