Gentlemen;

Enclosed find lease maps of the area around Section 26, T18S, R26E showing offset leases to the re-entry well we are requesting permission to move on. Our location is 2362' from west, and 990' from north lines.

We have under lease all of the north half of Section 26, and you have in your office letters of waiver from Kewanee and Amoco who have all offset acreage that we do not have under lease.

We are therefore requesting Administrative approval to re-enter this well under regulations set out in Rule 104.

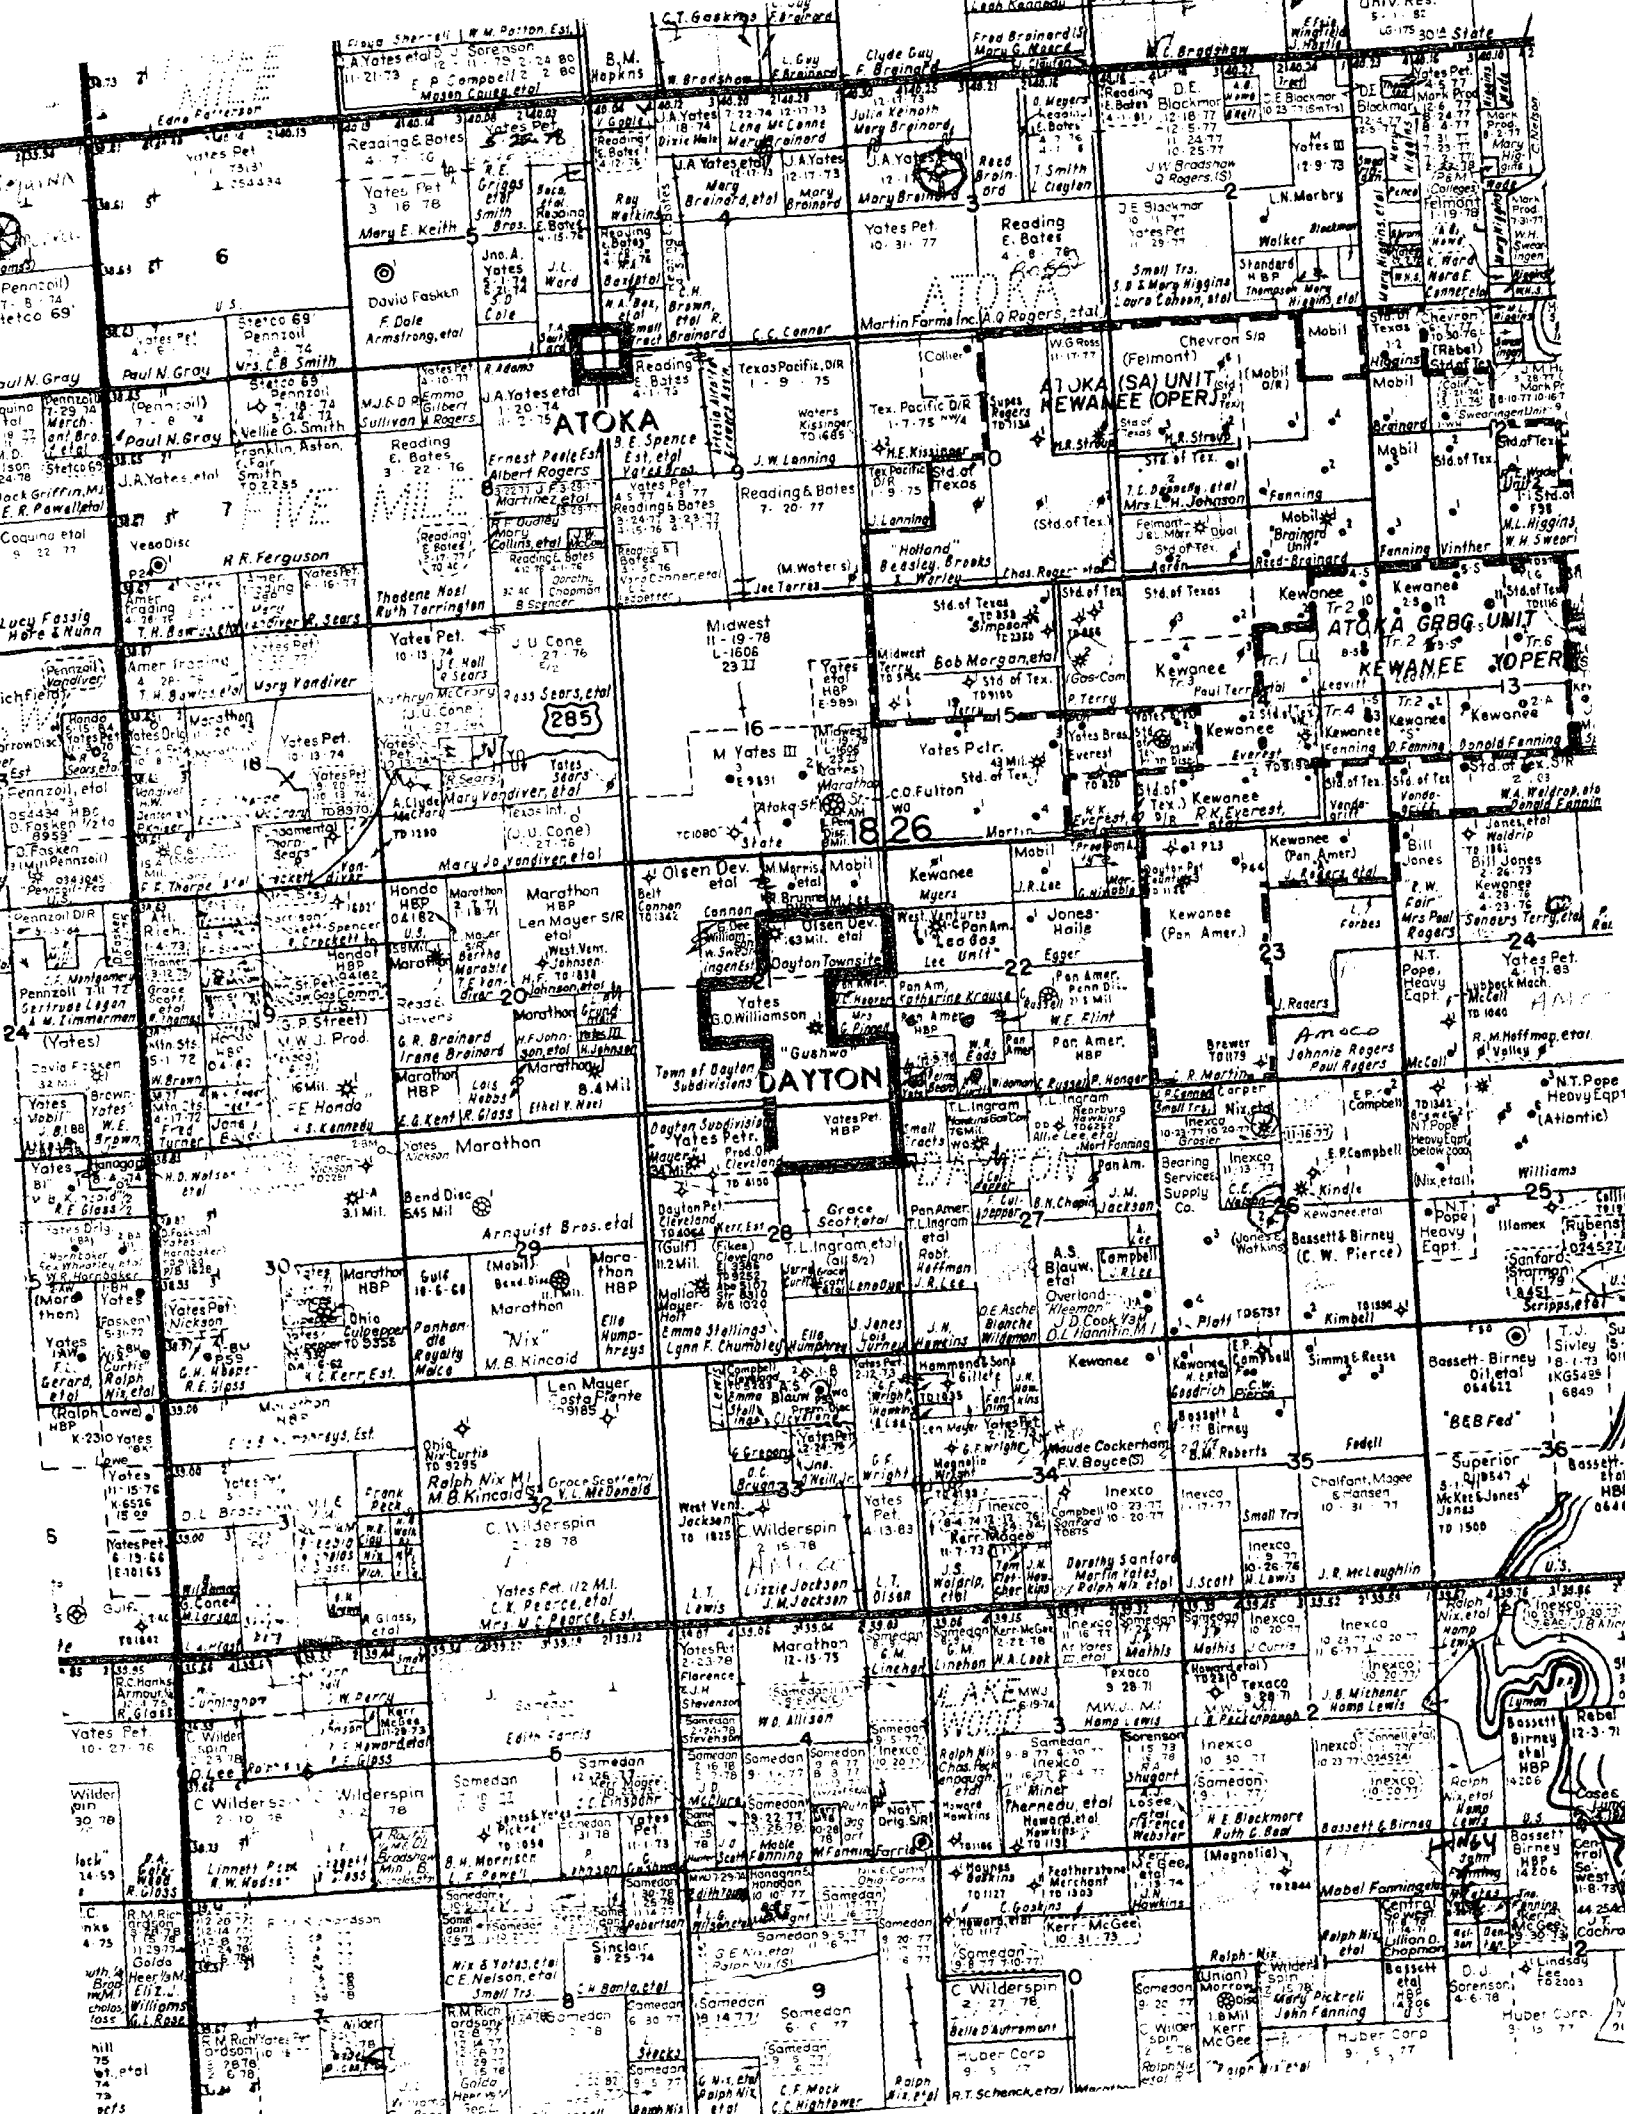

Very truly yours,

B. N. Muncy, Jr.

Plan to re-complete in SA

Dear Mr. Herring:

Please find enclosed well location and acreage dedication plat for the above referred to test. As you will note from this plat, the well is at an unorthodox location, so I am requesting the Kewanee Oil Company indicate that they have no objection to this well being drilled at an unorthodox location by their execution of a copy of this letter.

If this is acceptable to Kewanee, please indicate by signing a copy of this letter and returning it to me at the above address for my forwarding to the district director of the New Mexico Oil and Gas Conservation Commission.

Thank you.

Sincerely,

D. L. Hannifin
