SUBJECT

Roberts Well No. 1
Section 9, Twp. 7-S, Rge. 33-E
Roosevelt County, New Mexico

Gentlemen:

We respectfully request administrative approval for an unorthodox location on the subject well, as an exception to Rule 104 B., and in accordance with Rule 104 F. The well was drilled as an orthodox Wildcat oil well location to the Mississippian formation on 40 acre spacing, located 660' FNL and 660" FWL of Section 9. The well was subsequently completed in the Canyon (Penn.) formation as a gas well, and requires 320 acre spacing. Since the well is located closer than 1980' from the end boundary of the 320 acre proration unit, an exception is being sought administratively. A plat showing the ownership of leases offsetting the proration unit is enclosed.

The only two offset operators, El Paso Natural Gas Company and Western Reserve Oil Company, are being notified this date by certified mail, as noted on the enclosed Xerox copies.

Yours very truly,
