*20 wells - In 1976*

Attn: Mr. Joe Ramey

*Rule 14 - R 4549 B*

Re: Request for Non-Standard Drilling Locations  
Within the Project Area of the ARCO-Empire  
Abo Unit Pressure Maintenance Project  
Eddy County, New Mexico

*See upon receipt of  
approval from Artesia*

Gentlemen:

Atlantic Richfield Company, as operator of the Empire Abo Unit Pressure Maintenance Project, acting on behalf of itself and the other participating working interest owners, requests administrative approval under the Provisions of Order No. R-4549-B, Rule 14, under "Special Rules and Regulations for the Empire Abo Pressure Maintenance Project," for the drilling of 20 Unit wells at non-standard locations (locations shown on attached exhibit).

The proposed drilling of the subject wells at the non-standard locations meet all requirements of Order R-4549-B, Rule 14, said wells being located "no closer than 660 feet to the outer boundary of said unit, nor closer than 10 feet to any quarter-quarter section or subdivision inner boundary."

The proposed drilling of the wells will be necessary to complete a more efficient producing pattern to conserve reservoir energy, promote the greatest ultimate recovery of Unit reserves, prevent waste, and protect correlative rights.

Very truly yours,

ATLANTIC RICHFIELD COMPANY
