Dear Mr. Kapteina:

Coquina Oil Corporation respectfully request that we be granted an administrative approval for an exception to Statewide Rule 104 on the above referenced well. We are requesting this exception for an unorthodox location based upon topographical conditions, that is, at the standard location there is an existing dry hole. Please find the attached plat which shows the proposed location, the existing dry hole and offset operators. It is our intent to drill 100 feet north from the standard location to a horizon of 11,600 feet or the Morrow formation.

Finally, as set forth in Section F of Rule 104, all offset operators have been notified and ask to sign a waiver which they will forward directly to your office.

If you have any questions please advise. Your cooperation in this matter is sincerely appreciated.

Very truly yours,

Dear Sir:

Coquina Oil Corporation has requested a location waiver in order to receive a permit to drill the subject well for a Morrow test in Eddy County.

The stated location is 1880' FNL and 660' FWL of Section 32, T-19-S, R-29-E.

Amoco Production Company offsets Section 32 to the southeast and we waive notice and hearing on this request.

Very truly yours,
