#### NATURE OF RELEASE

Type of Release Crude oil and Produced water	Volume of Release <1 bbls	Volume Recovered <1 bbls
Source of Release 3" flow line	Date and Hour of Occurrence 02/16/2007 09:45 AM	Date and Hour of Discovery 02/16/2007 09:45 AM
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? N/A	
By Whom? N/A	Date and Hour N/A	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse. N/A	
If a Watercourse was Impacted, Describe Fully.*		

Describe Cause of Problem and Remedial Action Taken.\*  
Leak reported by public (employees of American Machine at 211 S. Leech) on flow line at South Hobbs Unit Well #225. Well was immediately turned off and valves were shut on wellhead and header that are on the same location at the intersection of Leech and White Streets in Hobbs, NM. All fluid was contained by west curb on Leech Street. Fluid ran along curb to the north and stopped at corner of Leech and Dunnam. There was no city drain along this block and we were able to recover all fluid.

Describe Area Affected and Cleanup Action Taken.\*  
Spilled fluid ran along curb for about a city block, north to the corner of Leech and Dunnam. There is no city drain on this corner and all fluid was recovered via vacuum truck. A transport truck loaded with fresh water was called and entire area was over flushed to vacuum truck on the corner of Leech and Dunnam. All rinse water and spilled fluid was recovered and hauled to an approved disposal. Piping will be excavated and repaired. Due to minimal fluid loss and damage, no further work is planned at this site. This report being sent, for information only, due to public report of spill.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
