RE: Unorothodox Location
Stinking Draw Unit No. 2
1383' FSL & 695' FEL
Section 10-T21S-R22E
Eddy County, New Mexico

Dear Sir:

Yates Petroleum Corporation would like to request administrative approval of the above listed non-standard gas well location, necessitated by topographical conditions. The offset operators are being notified by copies of this letter which they are requested to sign and return to you if they have no objections to the un-orothodox location.

The dedicated acreage is the East half of Section 10. The standard location initially anticipated for drilling fell on the slope north of the draw. The site was moved South across Stinking Draw to avoid distrubing grazing land presently used in the draw and to reduce excessive cutting into the hillside for an area large enough to accomodate a drill pad. The relocation was witnessed by NMOCC Deputy Leland Mermis and Mr. Bill Gissler, the rancher leasing the land.

Copies of the lease ownership map and topography map are attached as required under NMOCC Rule 104-F.

Very truly yours,

YATES PETROLEUM CORPORATION

Budd Hebert, PhD
Land Engineer

Enclosures - Attached.
