Gentlemen:

Application for Well Location Exception
990' FWL 2590' FSL Sec. 6 T29N R9W
Blanco Mesaverde Field
San Juan County, New Mexico

*NSL-899
Rule 3-R1670
Send copy to [unclear]
Pat on waiting
H 21-77
Waivers in*

Amoco Production Company hereby requests administrative approval of a well location exception for its Jacquez Gas Com "C" Well No. 1A to be drilled at a location 990' FWL and 2590' FSL Sec. 6-29N-9W, Blanco Mesaverde Field, San Juan County, New Mexico. The basis for this request is topographical conditions which prevent the well site and access road from being built at a reasonable cost. A plat showing the topography of the area is enclosed for your information. This data was extracted from USGS topographic maps of the area. A regular location would require building roads and the drilling site on steeply sloping land. Furthermore, access to a regular location would require building a road through nearby home sites.

El Paso Natural Gas Co. is the operator of Mesaverde wells offsetting the proposed well. Amoco is the only other offsetting operator. The E/2 of Sec. 1-29N-10W has not been designated a Mesaverde spacing unit. The enclosed map shows all the offsetting Mesaverde spacing units.

We have notified El Paso by certified mail on October 20, 1977, of our intention to apply for a well location exception. We have requested that they waive objection to our application by sending a written waiver to your office.

New Mexico Oil Conservation Commission
Page 2
October 27, 1977

As discussed by our Mike Golas in a telephone conversation with Dan Nutter on October 20, the spacing unit for the Amoco Jacquez Gas Com "C" is the S/2 Sec. 6 and the N/2 N/2 Sec. 7-29N-9W since Sections 6 and 7 are irregular sections. We have been unable to determine the number of the Commission Order which established the non-standard spacing unit and permitted the drilling of the Jacquez Gas Com "C" Well No. 1 in the SE/4 of Section 6. This well was completed in 1959.

Sincerely

A handwritten signature in black ink that reads "R. B. Giles". The signature is written in a cursive style with a large, prominent "R" and "G".

R. B. Giles

Well Location Exception
Section 6-T29N-R9W
Blanco Mesaverde Field
San Juan County, New Mexico

Gentlemen:

This is to notify you that Amoco Production Company will apply to the New Mexico Oil Conservation Commission for approval of an unorthodox well location in the Blanco Mesaverde Field for the drilling of the Jacquez Gas Com "C" Well No. 1A at a location 990' FWL, 2590' FSL, Section 6-T29N-R9W, San Juan County, New Mexico. Terrain problems in the SE/4 of Section 6 prohibit us from drilling at a regular location.

El Paso operates wells in Section 1 and Section 12-T29N-R10W offsetting our proposed location. Amoco operates and has a 100% working interest in the unit in the N/2 of Section 6. Since the proposed location is not crowding El Paso operated units, we request that you waive objection to Amoco's request for a location exception. If this location meets with your approval, please sign the enclosed Waivers and return one copy to us and one to the New Mexico Oil Conservation Commission in the envelopes provided. If questions arise, please call Mike Golas at 303/820-4515.

Sincerely,

M. S. Kraemer
