Attention: Mr. Joe D. Ramey

Gentlemen:

*NSP 27*

Texas Pacific Oil Company, Inc., respectfully requests Administrative approval of the unorthodox location to recomplete the Cooper "B" Well No. 3 located in Unit A, 330' from the North Line and 330' from the East Line of Section 14, T-24-S, R-36-E, Lea County, New Mexico. This well is a TA'd Jalmat oil well and is to be recompleted as a Jalmat gas well.

The well is located within an approved 160-acre non-standard Jalmat Gas Proration Unit and simultaneous dedication is requested also. This approval is in the interest of conservation, will protect correlative rights, prevent economic waste, and will allow for more complete recovery of the Jalmat gas reserves.

Attached is a map showing offset operators, well location and acreage dedication plat, and a list of offset operators. Offset operators have been notified by copy of this request.

Yours very truly,

TEXAS PACIFIC OIL COMPANY, INC.

Dear Mr. Keneipp:

On December 9, 1977, I wrote you advising that the plat which accompanied your application of December 5, 1977, for an unorthodox location for your Cooper B Well No. 3 did not reflect the offset operators reported to have been notified of your request. At that time I requested that a corrected plat be filed.

To date no corrected plat has been received. Please file the same or advise this office if you no longer wish approval of the application.

Very truly yours,
