Case No. 6008
Order No. R-5530

New Mexico Oil Conservation Commission
P. O. Box 2088

ATTENTION: MR. JOE D. RAMEY
SECRETARY-DIRECTOR

Gentlemen:

Texaco Inc. respectfully requests an amendment to the New Mexico Oil Conservation Commission Order No. R-5530 and to Exhibit "A" of said Order No. R-5530 to allow the drilling of Central Vacuum Unit Well No. 13 at a location 2536' from the North line and 117' from the East line (Unit H) of Section 25, Township 17 South, Range 34 East, and that our request of January 24, 1978 for revised location for this well only be cancelled.

It is necessary to revise this location to avoid interference with electrical lines in the vicinity as indicated on the attached plat. A plat of the Central Vacuum Unit showing the revised location for this well is also attached. Moving this well's location will not result in the loss of any reserves or interfere with any correlative rights.

A waiver of protest for this unorthodox location has been submitted to Mobil Oil Corporation for their approval. We anticipate that their waiver will be forthcoming. You will be furnished a copy when it is obtained.

Yours very truly,

J. V. Gannon
