Application For Unorthodox Location Dawson LS #1B Well 1270 Feet FSL 620 Feet FWL SW/4 Section 31-T31N-R8W Blanco Mesaverde Pool San Juan County, New Mexico

Amoco Production Company hereby requests administrative approval for an unorthodox well location for the Dawson LS #1B well in the Blanco Mesaverde Pool. The location of the well is 1270' FSL and 620' FWL of section 31, T31N-R8W. Amoco plans to drill this well as the third well in the nonstandard unit consisting of 326.00 acres in the W/2 section 31 and SW/4 of section 30. The SW/4 section 31 is currently undeveloped in the Blanco Mesaverde. The unorthodox location is necessary due to archeology concerns in the area.

A copy of this application will be submitted to the offset operators by certified mail with a request that they furnish your Santa Fe office with a Waiver of Objection, and return one copy to this office. Attached are plats showing the location of the well, offset operators, and all wells drilled in the area.
