Re: Non-Standard Gas Well Spacing
Sec 33-17S-26E, Kennedy Farms
Kennedy JQ Com #1

Dear Sir:

Yates Petroleum Corporation seeks administrative approval of a non-standard location in an East half-section dedication site to be located 2510 FNL 660 FEL of Section 33-17S-26E, Eddy County. This application is based on Topography as provided for under NMOCC Rule 104F.

The standard location falls in the middle of a cultivated hay field but our geology will allow moving south onto unimproved terrain between irrigated farm lands. The proposed site is crowding the center of the proration unit, rather than offsetting acreage, and will not affect correlative rights of others.

An ownership plat and topographic plat are attached showing the proposed site and offset owners, also the topographic features.

Offset operators are notified of this intent by copy of this application and are asked to advise the NMOCC that they waive exception to the non-standard gas well spacing.

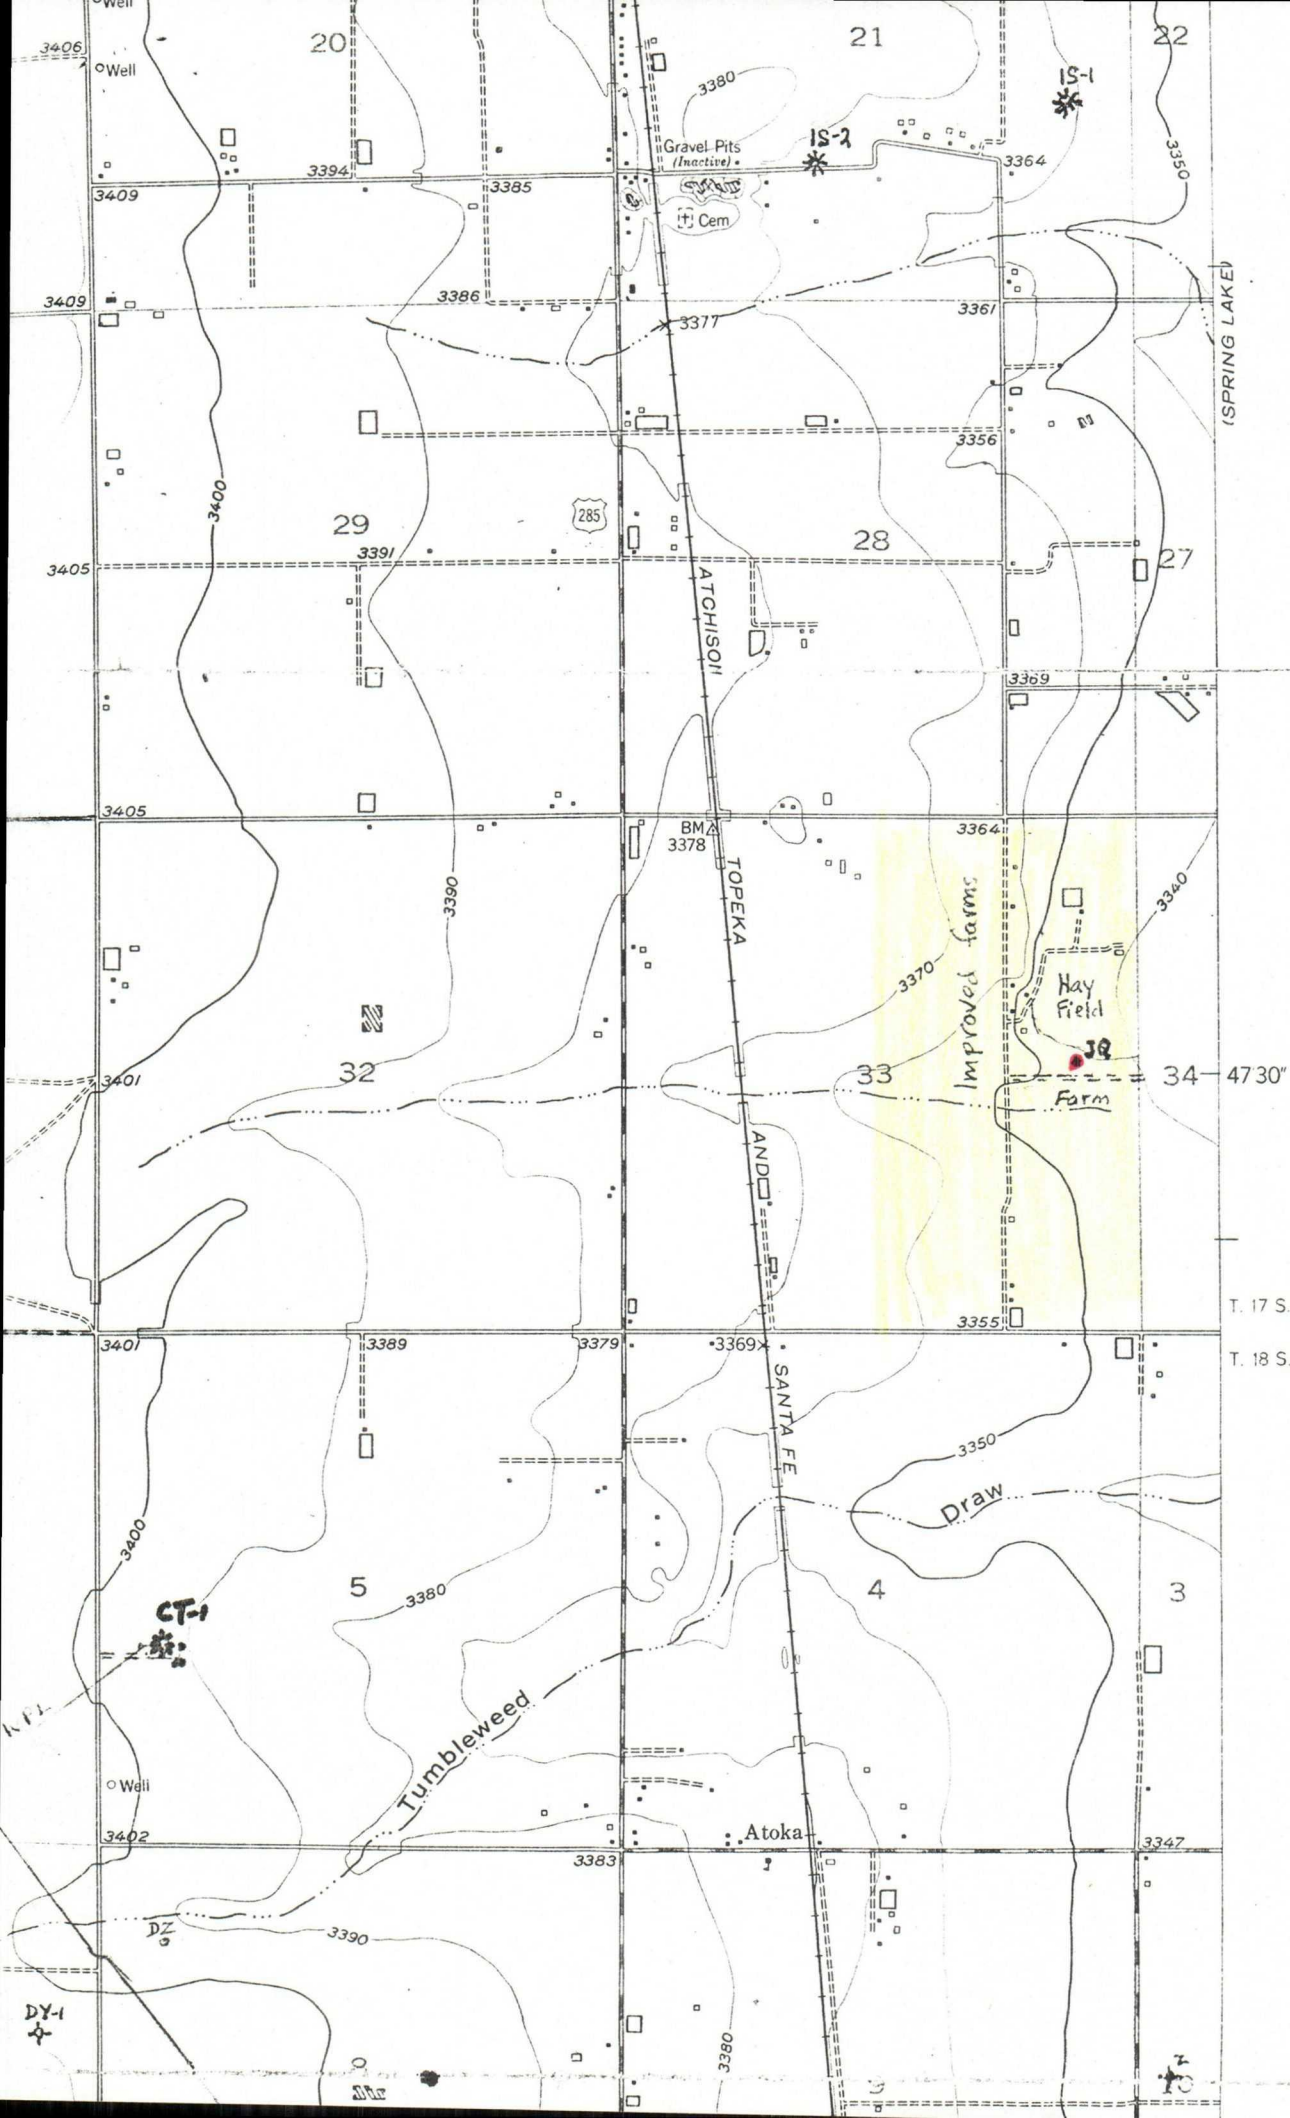

Yours very truly,

YATES PETROLEUM CORPORATION

Re: Non Standard Gas Well Spacing
Kennedy JQ Com #1
2510/N 660/E Sec 33-17S-26E

Dear Richard:

I am enclosing a detailed plat of the proposed well-site area. The rig area will be on unimproved land surface presently used to divert flood waters from washing John Lanning's hay field. The run-off is presently in the Buck Pounds access road and on Clyde Guy's orchard.

Notices to the offset operators were mailed out on Friday afternoon May 5th and were to have been by Special Delivery.

Yours very truly,

YATES PETROLEUM CORPORATION
