Santa Fe, NM 87501

Attention: Mr. Joe D. Ramey, Secretary-Director

Dear Mr. Ramey:

Amoco Production Company respectfully requests administrative approval for an unorthodox location for our Williams Gas Com Well No. 1, located 560 feet FNL and 1980 feet FWL, Unit C, Section 21, T 19 S, R 24 E, Eddy County, New Mexico. Approval is requested based upon topographical conditions.

The orthodox drillsite, located 660 feet FNL and 1980 feet FWL, would have placed the well in a concrete canal used for irrigation by Carlsbad Irrigation Company. A house, corrals, and a barn prevented the movement of the well east, and the only location available is the unorthodox location at 560 feet FNL and 1980 feet FWL. The deposition trend of the reef discouraged us from moving the well to the south.

In support of our request, we have attached the following:

1. Topographic map showing the wellsite and the existing topographical conditions.
2. Plat showing the well location and all offset operators.
3. A list of names and addresses of all offset operators.

State of New Mexico
Oil Conservation Division
Santa Fe, NM 87501

-2-

File: VES-WF-1527

4. A copy of a letter from Amoco to all offset operators.
5. Proof that the letter has been sent by Certified Mail to all offset operators.

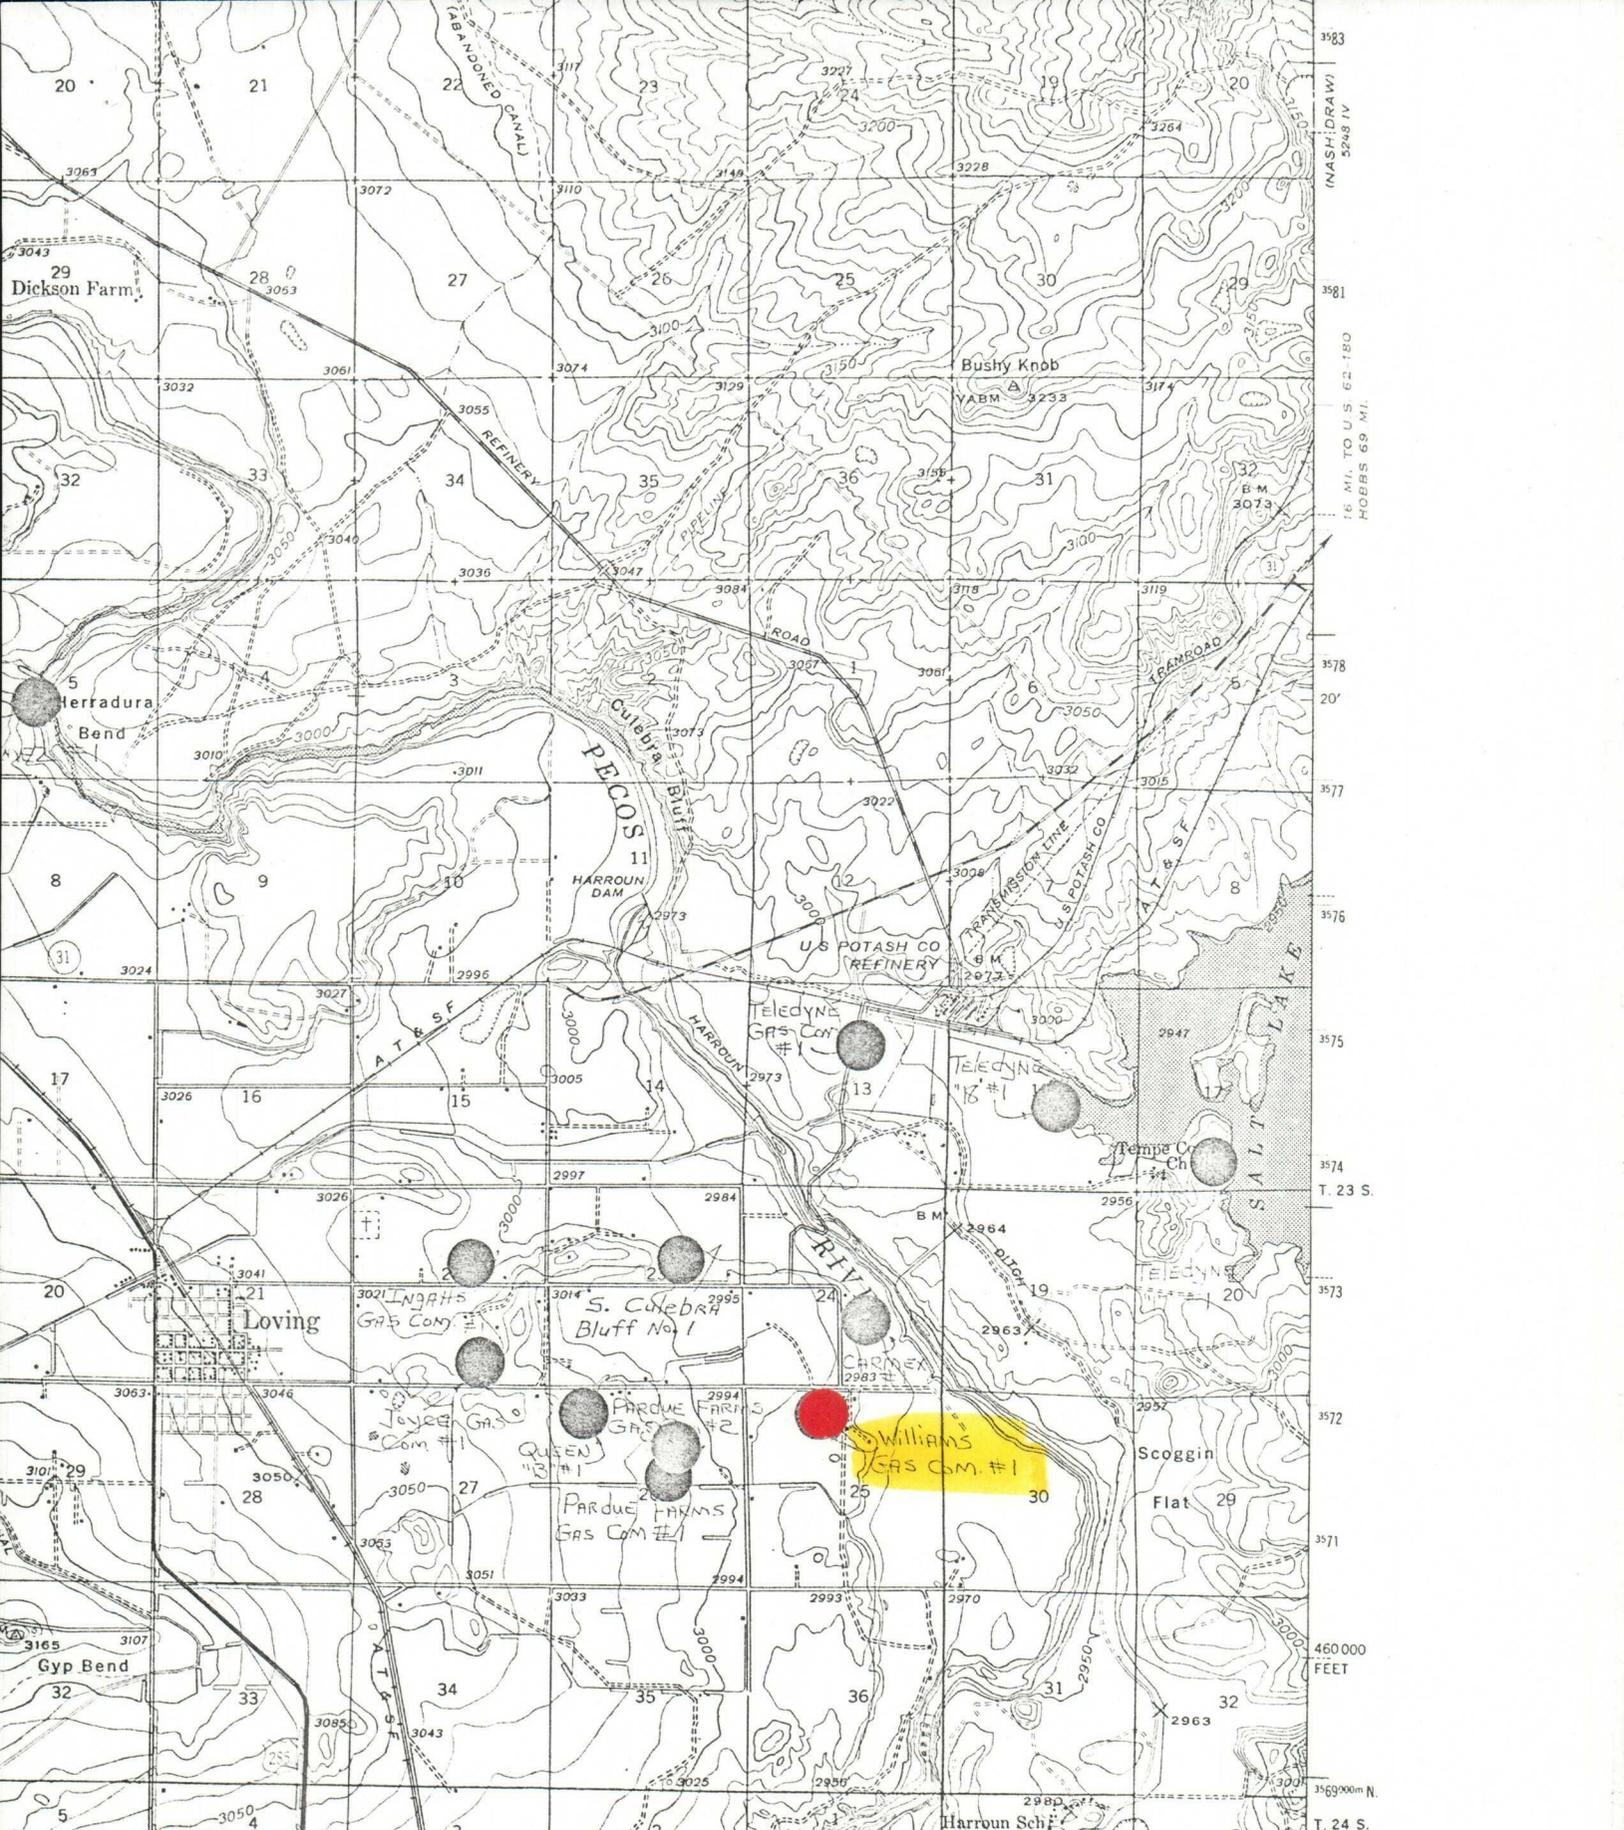

We respectfully request that the Division give administrative approval for this unorthodox location due to topographical conditions.

Yours very truly,

A handwritten signature in black ink, consisting of a large, stylized 'S' shape with a horizontal line extending to the left.

~~OFFSET OPERATORS~~ TO AMOCO PRODUCTION COMPANY'S
WILLIAMS GAS COM WELL NO. 1

Gentlemen:

Amoco Production Company respectfully requests your approval of an unorthodox location for our Williams Gas Com Well No. 1, located 560 feet FNL and 1980 feet FWL, Unit C, Section 21, T-19-S, R-24-E, Eddy County, New Mexico.

The original orthodox drillsite, located 660 feet FNL and 1980 feet FWL, would have placed the well in a concrete canal used for irrigation by Carlsbad Irrigation Company. A house, corrals, and a barn prevented the movement of the well east, and the only location available is the unorthodox location at 560 feet FNL and 1980' FWL. We are asking for New Mexico Oil Conservation Division approval based on topographical conditions.

Please indicate your approval of our application by signing two of the enclosed copies and sending one to the New Mexico Oil Conservation Division and one to us. Envelopes, which have been addressed and stamped, are attached for your convenience.

Yours very truly,
