Dear Mr. LeMay:

Chevron U.S.A. is planning to recomplete the **W.A. Ramsay (NCT-A) #18** in the Eumont YTS-7RVRS-QN (Pro Gas) Pool. The well is currently completed in the Eumont (Queen) Oil Pool. The location of the proposed recompletion is 660' FNL and 1980' FWL in Section 35, T-21-S, R-36-E, Lea County, New Mexico.

The captioned well is on an existing standard 640-acre Eumont gas spacing and proration unit (GPU) which comprises all of Section 35 of T-21-S, R-36-E according to Division Order R-4590, dated July 13, 1973. The same order authorized the simultaneous dedication of the W.A. Ramsay (NCT-A) Nos. 7 and 20, located in Units N and E, respectively, of T-21-S, R-36-E, to the said standard GPU. Since that time, the W.A. Ramsay (NCT-A) Nos. 3, 10, 12, and 13 have been dedicated to the GPU. We respectfully request that the production from the **W.A. Ramsay (NCT-A) #18** be simultaneously dedicated to the said GPU with the existing wells.

Because the location of the captioned well is 660' from the boundary of the 640-acre GPU, we also request your approval for an unorthodox well location.

A copy of this administrative application is being provided to our offset operators via Certified Mail. Attached is a commercial map and C-102 plats illustrating the proration unit acreage and well locations for each of the wells in the GPU. Also included is a copy of Division Order R-4590 as well as copies of the letters to our offset operators.

Administrative Application
Eumont YTS-7RVRS-QN
(Pro Gas) Pool

IN THE MATTER OF THE HEARING
CALLED BY THE OIL CONSERVATION
COMMISSION OF NEW MEXICO FOR
THE PURPOSE OF CONSIDERING:

CASE NO. 4983
Order No. R-4590

APPLICATION OF GULF OIL CORPORATION
FOR SIMULTANEOUS WELL DEDICATION
AND NON-STANDARD LOCATIONS, LEA
COUNTY, NEW MEXICO.

ORDER OF THE COMMISSION

BY THE COMMISSION:

This cause came on for hearing at 9 a.m. on June 27, 1973, at Santa Fe, New Mexico, before Examiner Elvis A. Utz.

NOW, on this 13th day of July, 1973, the Commission, a quorum being present, having considered the testimony, the record, and the recommendations of the Examiner, and being fully advised in the premises,

FINDS:

(1) That due public notice having been given as required by law, the Commission has jurisdiction of this cause and the subject matter thereof.

(2) That the applicant, Gulf Oil Corporation, is the owner and operator of the W. A. Ramsay (NCT-A) Well No. 20 in Unit E of Section 35 and the W. A. Ramsay (NCT-A) Well No. 7 in Unit N of Section 35, both in Township 21 South, Range 36 East, NMPM, Eumont Gas Pool, Lea County, New Mexico.

(3) That the applicant seeks approval for the simultaneous dedication of the above two described wells to a standard 640-acre gas proration unit comprising all of Section 35, Township 21 South, Range 36 East, NMPM, Eumont Gas Pool, Lea County, New Mexico.

(4) That the applicant seeks approval of a non-standard location for its W. A. Ramsay (NCT-A) Well No. 7 in Unit N, located 660 feet from the South line and 1980 feet from the West line of said Section 35.

(5) That the applicant further seeks authority to produce the allowable assigned to the unit from either of the aforesaid wells in any proportion and to make up the gas underage accrued on the said W. A. Ramsay (NCT-A) No. 20.

(6) That approval of the subject application will afford the applicant the opportunity to produce its just and equitable share of the gas in the Eumont Gas Pool and will otherwise prevent waste and protect correlative rights.

IT IS THEREFORE ORDERED:

(1) That the applicant, Gulf Oil Corporation, is hereby authorized the simultaneous dedication of its W. A. Ramsay (NCT-A) Well No. 20 in Unit E, located at a non-standard location in Unit E of Section 35, Township 21 South, Range 36 East, NMPM, and its W. A. Ramsay (NCT-A) Well No. 7 in Unit N, located at a non-standard location in Unit N of said Section 35 to a standard 640-acre gas proration unit comprising all of said Section 35.

(2) That the allowable assigned to the above-described gas proration unit shall be based upon the unit size of 640 acres; that the operator may produce the allowable assigned to the unit from the subject wells in any proportion; and that the status of said consolidated unit shall be the combined status, as of August 1, 1973, of the two wells being consolidated.

(3) That jurisdiction of this cause is retained for the entry of such further orders as the Commission may deem necessary.

DONE at Santa Fe, New Mexico, on the day and year hereinabove designated.

New Mexico Operations Director:

Attached is a copy of an administrative application for NMOCD approval of an unorthodox well location and simultaneous dedication in the Eumont YTS-7RVRS-QN (Pro Gas) Pool.

Chevron U.S.A. is planning to recomplete the **W.A. Ramsay (NCT-A) #18** from the Eumont Oil Pool to the Eumont Gas Pool. The subject well is located 660' FNL and 1980' FWL in Section 35 of T-21-S, R-36-E, Lea County, New Mexico. We have requested that the NMOCD approve the simultaneous dedication of this well with the W.A. Ramsay (NCT-A) Nos. 3, 7, 10, 12, 13, and 20 which produce on an existing standard 640-acre Eumont gas spacing and proration unit (GPU). This GPU comprises all of Section 35 in T-21-S, R-36-E. Because the subject well is located 660' from the boundary of a 640-acre GPU, we have also requested NMOCD approval of an unorthodox well location.

If you have any questions about the application, please contact Richard Black at (915) 687-7284.

Midland, Texas 79702

New Mexico Operations Director:

Attached is a copy of an administrative application for NMOCD approval of an unorthodox well location and simultaneous dedication in the Eumont YTS-7RVRS-QN (Pro Gas) Pool.

Chevron U.S.A. is planning to recomplete the W.A. Ramsay (NCT-A) #18 from the Eumont Oil Pool to the Eumont Gas Pool. The subject well is located 660' FNL and 1980' FWL in Section 35 of T-21-S, R-36-E, Lea County, New Mexico. We have requested that the NMOCD approve the simultaneous dedication of this well with the W.A. Ramsay (NCT-A) Nos. 3, 7, 10, 12, 13, and 20 which produce on an existing standard 640-acre Eumont gas spacing and proration unit (GPU). This GPU comprises all of Section 35 in T-21-S, R-36-E. Because the subject well is located 660' from the boundary of a 640-acre GPU, we have also requested NMOCD approval of an unorthodox well location.

If you have any questions about the application, please contact Richard Black at (915) 687-7284.

Sincerely,

F.S. Godbold
Petroleum Engineering Supervisor

- Outline the acreage contained in the subject well by corner points or section corners on the plat below.
 - If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
 - If more than one lease of different ownership is dedicated to the well, have the interest of all owners been consolidated by communitization, unitization, force-pooling, etc.?
 - Yes
 - No
 If answer is "no" list the owners and tract designations which have actually been consolidated. (Use reverse side of this form if necessary.)
- No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, force-pooling, or otherwise) or until a non-uniting unit, eliminating such interests, has been approved by the Division.
