Re: Request for unorthodox location approval:
Rule 104-F

Dear Sir:

For Mr. K. S. Blackford, Operator, I herewith request your approval for the emplacement of our Jicarilla 37-B-7, Sec. 24, T 24 N - R 5 W, Rio Arriba County, New Mexico in the accompanying surveyed location.

All of the orthodox locations fall either in a lake or on intolerably steep slopes surrounding the lake. Construction and operation of a drill site on any of the orthodox locations would result in considerable surface damage being done. Also, a continuing and recurring damage and inconvenience would be experienced in the course of operating a producing well.

Mr. Blackford owns and operates the properties on three sides of the proposed location.

Mr. Thomas A. Dugan, Dugan Production Corp. owns the north offset. Mr. Dugan has been properly notified of our intent and expresses no objection to our proposed location.

I trust that the enclosed information is sufficient to justify our request. If additional information is needed, please contact me at the above address.

Respectfully,
B. F. Latch

Dear Sir:

Re: Jicarilla 37-B-7
NW $\frac{1}{4}$ Sec 24, T 24 N, R 5 W
Rio Arriba County, N. M.

This location is staked farther from the North line of Section 24 than an "approved" location would be staked. This is due to the topography of the surrounding area. North of the location as staked (and where a standard location would fall) is a fair-sized lake surrounded by hills with slopes of 10% to 20%.

The present location is staked on fairly level ground and will do minimum damage to the environment.

Yours truly,
