Release Notification and Corrective Action

OPERATOR

Initial Report Final Report

Name of Company Plains Pipeline	Contact Camille Reynolds
Address 3112 W. US Hwy 82, Lovington, NM 88260	Telephone No. 505-441-0965
Facility Name Skippy Horn	Facility Type 4" Steel Pipeline

Surface Owner SLO	Mineral Owner	Lease No.
-------------------	---------------	-----------

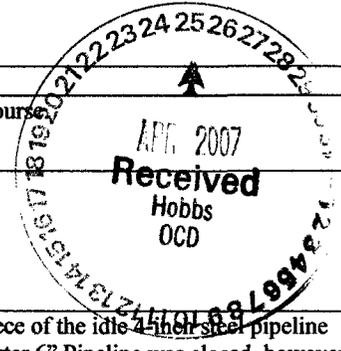

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
N	30	20S	37E					Lea

Latitude 32° 32' 26.0" Longitude 103° 17' 34.8"

NATURE OF RELEASE

Type of Release Crude Oil	Volume of Release 52 barrels	Volume Recovered 0 barrels
Source of Release 4" Steel Pipeline	Date and Hour of Occurrence 04/05/2007 @ 7:45	Date and Hour of Discovery 04/05/2007 @ 8:00
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Pat Caperton	
By Whom? Camille Reynolds	Date and Hour 04/23/2007 @ 8:00	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken: At some time in the past an unknown party removed a piece of the idle 4-inch steel pipeline leaving the pipeline open ended. The 4-inch tie-in & check valve for the Skippy Horn Pipeline into the Eunice Booster 6" Pipeline was closed, however; it apparently allowed seepage to enter the idled 4-inch pipeline causing a limited flow of crude oil to enter the line, which seeped for an unknown period of time. A blind was installed at the tie-in valve to ensure the valve is isolated. Line idled, therefore, pressure and volume is not applicable.

Describe Area Affected and Cleanup Action Taken.* The initial visual impacted area was approximately 8 feet long by 8 feet wide. At that time the crude oil release was deemed to be a non-reportable release. Upon further excavation of the release area, it was determined to elevate the crude oil release to a reportable status. The impacted soil is being stockpiled on site on a 6-mil poly liner.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
