Dear Sir:

Gulf Oil Corporation requests your administrative approval for an unorthodox location in the Tubb Gas Pool for Mark Owen No. 4, 2068' FEL and 2068' FSL of Section 34-21S-37E, Lea County, New Mexico.

In support of this application, the following facts are submitted:

1. Subject well was reclassified as a gas well in the Tubb Gas Pool (see attached letter dated December 6, 1978).
2. Rule 104 requires that a gas well in the Tubb Gas Pool be located on a tract consisting of 160 surface contiguous acres and shall not be located closer than 660' from any outer boundry of such tract, necessitating this request.
3. There are no other wells producing from the Tubb Gas Pool in the SE/4 of Section 34-21S-37E.
4. The attached plat shows the proposed 160 acre standard proration unit outlined in red.
5. All offset operators have been furnished a copy of this application by certified mail on April 6, 1979.

Your early consideration of this application will be appreciated.

Yours very truly,
