OIL CONSERVATION DIVISION
SANTA FE

Dear Sir:

Gulf Oil Corporation requests your administrative approval for an unorthodox location for our No. 1 Truitt Ranch Unit, to be located 1625'FSL and 1655'FWL of Section 26-T22S-R24E, Eddy County, New Mexico, which Gulf proposes to drill and complete as a wildcat at this location. The location has been moved to an unorthodox location due to the mountainous terrain. In support of this application, the following facts are submitted:

- (1) Rule 104 requires that gas wells completed in this zone be located on a tract consisting of 320 surface contiguous acres and shall not be located closer than 1980 feet to the nearest end boundary of such tract which necessitates this request.
- (2) The attached map shows the location of the well and the proposed 320-acre proration unit outlined in red.
- (3) There are no offset operators - see plat attached.

Your early consideration in this matter will be appreciated.

Yours very truly,

R. C. Anderson
