Gentlemen:

Attached in duplicate (to each office) are a well location plat C-102 with a sketch of the surrounding topography and an ownership plat for the above captioned dual DK-MV gas well.

The proposed site of the Florance #124 has been relocated to 635' FNL, 2020' FWL, Sec. 27 - T29N - R9W, San Juan County, New Mexico. This places the well only 620' from the boundary line of the proration unit. This was the only feasible site due to topographical conditions as sketched on the C-102.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to authority of Rule 104-F, we respectfully request your approval of an exemption to the standard well location requirements.

Very truly yours,

We may not process the subject application for non-standard location until the required information or plats checked below (is)(are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases. The plat submitted does not seem to show the names of the owners of offset acreage.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location.
