Re: Application for non-standard  
location, Northeast Blanco Unit  
Well No. 13A

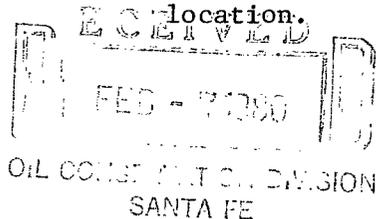

Dear Mr. Ramey:

As Operator of the Northeast Blanco Unit, we are requesting administrative approval of a non-standard well location to be completed in the Mesaverde Formation.

We intend to drill the Northeast Blanco Unit Well No. 13A, an infill well, located 1170' F/NL - 2260' F/WL, C-20-30N-7W, Rio Arriba County, New Mexico.

As evidenced by the enclosed map, a segment of Navajo Lake occupies a large portion of the NW/4 of Section 20. Due to the lake and adjacent rocky bluffs, we have surveyed the well site in the most logical location.

All offset properties, are within the bounds of the Northeast Blanco Unit except Section 30, T30N-R7W, Rio Arriba County, New Mexico, which is operated by El Paso Natural Gas Company, P.O. Box 990, Farmington, New Mexico, who was notified by registered mail on February 6, 1980, of our request for administrative approval of the above non-standard well location.

Very truly yours,

BLACKWOOD & NICHOLS CO., LTD.

DeLasso Loos, District Manager
