Gentlemen:

Administrative Order NSL-1220 granted unorthodox location for subject well in the Morrow zone. The well was subsequently completed in the Wolfcamp and the Oil Conservation Commission has requested an amendment to said order. You, as offset operators, are hereby notified of this amendment to NSL-1220 changing completion from the Morrow to the Wolfcamp zone.

Yours very truly,

R. C. ANDERSON

Dear Sir:

Gulf Oil Corporation requests your administrative approval for the non-standard location described above for our Lake McMillan Federal Unit No. 1, a proposed 10,600' Morrow well. In support of this application, the following information is submitted herewith:

1. A plat showing the location of the well, the proposed 320 acre proration unit outlined in red, and the ownership of the offsetting leases.
2. A plat fully identifying the topography & location of the lake which necessitate the non-standard location.
3. A list of offset operators.

Additionally, the offset operators have been furnished copies of the original application (by certified mail) as well as the attached information and the waivers to be sent to your office.

If additional information is required, please advise.

Yours very truly,

R.C. Anderson

Dear Sir:

In reference to the above Administrative Order, the original Application for Non-Standard Location indicated that the Lake McMillan Federal Well No. 1 would be completed in the Morrow zone. This well was actually completed in the Wolfcamp zone and your records should be changed to reflect this amendment.

If additional information is required, please advise.
