ADMINISTRATIVE APPLICATION CHECKLIST

THIS CHECKLIST IS MANDATORY FOR ALL ADMINISTRATIVE APPLICATIONS FOR EXCEPTIONS TO DIVISION RULES AND REGULATIONS WHICH REQUIRE PROCESSING AT THE DIVISION LEVEL IN SANTA FE

Application Acronyms:

[NSL-Non-Standard Location] [NSP-Non-Standard Proration Unit] [SD-Simultaneous Dedication]
[DHC-Downhole Commingling] [CTB-Lease Commingling] [PLC-Pool/Lease Commingling]
[PC-Pool Commingling] [OLS - Off-Lease Storage] [OLM-Off-Lease Measurement]
[WFX-Waterflood Expansion] [PMX-Pressure Maintenance Expansion]
[SWD-Salt Water Disposal] [IPI-Injection Pressure Increase]
[EOR-Qualified Enhanced Oil Recovery Certification] [PPR-Positive Production Response]

[1] TYPE OF APPLICATION - Check Those Which Apply for [A]

[A] Location - Spacing Unit - Simultaneous Dedication
☐ NSL ☐ NSP ☐ SD

Check One Only for [B] or [C]

[B] Commingling - Storage - Measurement
☐ DHC ☒ CTB ☐ PLC ☐ PC ☐ OLS ☐ OLM

[C] Injection - Disposal - Pressure Increase - Enhanced Oil Recovery
☐ WFX ☐ PMX ☐ SWD ☐ IPI ☐ EOR ☐ PPR

[D] Other: Specify _____

[2] NOTIFICATION REQUIRED TO: - Check Those Which Apply, or Does Not Apply

[A] ☐ Working, Royalty or Overriding Royalty Interest Owners

[B] ☐ Offset Operators, Leaseholders or Surface Owner

[C] ☐ Application is One Which Requires Published Legal Notice

[D] ☐ Notification and/or Concurrent Approval by BLM or SLO
U.S. Bureau of Land Management - Commissioner of Public Lands, State Land Office

[E] ☐ For all of the above, Proof of Notification or Publication is Attached, and/or,

[F] ☐ Waivers are Attached

SUBMIT ACCURATE AND COMPLETE INFORMATION REQUIRED TO PROCESS THE TYPE OF APPLICATION INDICATED ABOVE.

CERTIFICATION: I hereby certify that the information submitted with this application for administrative review is accurate and complete to the best of my knowledge. I also understand that no action will be taken on this application until the required information and notifications are submitted to the Division.

Note: Statement must be completed by an individual with managerial and/or supervisory capacity.

APPLICATION FOR SURFACE COMMINGLING (DIVERSE OWNERSHIP)

OPERATOR NAME: COLEMAN OIL & GAS, INC.

OPERATOR ADDRESS: PO DRAWER 3337, FARMINGTON, NM 87499-3337

APPLICATION TYPE:

☐ Pool Commingling ☒ Lease Commingling ☐ Pool and Lease Commingling ☐ Off-Lease Storage and Measurement (Only if not Surface Commingled)

LEASE TYPE: ☐ Fee ☒ State ☒ Federal ☒ Navajo Allotted ☐ Navajo Tribal

Is this an Amendment to existing Order? ☐ Yes ☐ No If "Yes", please include the appropriate Order No. CTB-528 & 556

Have the Bureau of Land Management (BLM) and State Land office (SLO) been notified in writing of the proposed commingling

☐ Yes ☐ No BLM & State have already signed off on Proposed Open System which encompasses the action proposed hereby.

(A) POOL COMMINGLING

Please attach sheets with the following information

(1) Pool Names and Codes	Gravities / BTU of Non-Commingled Production	Calculated Gravities / BTU of Commingled Production		Calculated Value of Commingled Production	Volumes

(2) Are any wells producing at top allowables? ☐ Yes ☐ No

(3) Have all interest owners been notified by certified mail of the proposed commingling? ☐ Yes ☐ No.

(4) Measurement type: ☐ Metering ☐ Other (Specify)

(5) Will commingling decrease the value of production? ☐ Yes ☐ No If "yes", describe why commingling should be approved

(B) LEASE COMMINGLING

Please attach sheets with the following information

(1) Pool Name and Code. BASIN FRUITLAND COAL - 71629

(2) Is all production from same source of supply? ☒ Yes ☐ No

(3) Have all interest owners been notified by certified mail of the proposed commingling? ☒ Yes ☐ No

(4) Measurement type: ☒ Metering ☐ Other (Specify)

(C) POOL and LEASE COMMINGLING

Please attach sheets with the following information

(1) Complete Sections A and E.

(D) OFF-LEASE STORAGE and MEASUREMENT

Please attach sheets with the following information

(1) Is all production from same source of supply? ☐ Yes ☐ No

(2) Include proof of notice to all interest owners.

(E) ADDITIONAL INFORMATION (for all application types)

Please attach sheets with the following information

(1) A schematic diagram of facility, including legal location. SUBMITTED WITH ORIGINAL SURFACE COMMINGLING APPLICATIONS.

(2) A plat with lease boundaries showing all well and facility locations. Include lease numbers if Federal or State lands are involved.

(3) Lease Names, Lease and Well Numbers, and API Numbers.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

Santa Fe, NM 87505

RE: SURFACE COMMINGLING ORDERS
CTB 528
CTB 556

Dear Mr. Fesmire:

This is a request for approval to add lands and wells to the two referenced Surface Commingling Orders. A Division Form C-107-B is attached.

On June 23, 2005 Order CTB 556 was issued allowing surface commingling of Basin Fruitland Coal production covering the following described lands and the wells located thereon:

Township 24 North – Range 10 West

Section 04: W/2	Section 05: ALL
Section 06: ALL	Section 09: N/2

Applicant would like to add the following lands and the wells located thereon to Order CTB 556. The original lands, leases and wells and those to be added to CTB 556 are more particularly described and tabulated on the attached Exhibit "A", Juniper Open System Well List:

Township 24 North – Range 10 West

Section 07: W/2; SE/4	Section 18: N/2
-----------------------	-----------------

Township 24 North – Range 11 West

Section 12: NE/4	Section 13: ALL
------------------	-----------------

Application for Surface Commingling

Wednesday, May 09, 2007

Page 2

Section 14: ALL

Section 15: ALL

Section 22: E/2

Section 23: ALL

Section 24: ALL

The CPD, known by Applicant as CPD # 2, for Order CTB 556 is located in the NWNE of Section 05, Township 24 North, Range 10 West and is serviced by Enterprise Field Services ("Enterprise") meter number 85-645-01.

On August 07, 2002 Order CTB 528 was issued allowing surface commingling of Basin Fruitland Coal production covering the following described lands and the wells located thereon:

Township 24 North – Range 10 West

Section 09: S/2

Section 16: ALL

Section 17: E/2

Applicant would like to add the following lands and the wells located thereon to Order CTB 528. The original lands, leases and wells and those to be added to CTB 528 are more particularly described and tabulated on the attached Exhibit "A", Juniper Open System Well List:

Township 24 North – Range 10 West

Section 07: NE/4

Section 08: ALL

Section 10: ALL

Section 15: ALL

Section 17: W/2

Section 18: S/2

Section 21: ALL

Section 28: N/2

The CPD, known by Applicant as CPD # 1, for Order CTB 528 is located in the NWNW of Section 10, Township 24 North, Range 10 West and is serviced by Enterprise meter number 98-708-01.

1. **Proposed System.** Surface commingling will allow production through a single compressor at each CPD, thereby allowing the containment of operating costs and prolonging the economic life of the wells. The wells will be commingled upstream of a CPD meter to reduce measurement costs. All wells will have an allocation meter on location. Enterprise will maintain the CPD meter and the applicant, Coleman Oil & Gas, Inc. ("Coleman") will maintain the allocation meters. The gas will flow into the Enterprise natural gas gathering systems as stated above.
2. **Location Map.** Exhibit 1 are topographic maps outlining the entire area to be covered by the original Surface Commingling Orders CTB 528 and CTB 556 and the lands to be added hereby. The CPDs are noted on the maps.

Application for Surface Commingling

Wednesday, May 09, 2007

Page 3

3. **Well, Locations and Lease Numbers.** Exhibit 2 consists of acreage dedication plats for the wells to be added to Surface Commingling Orders CTB 528 and CTB 556. The wells and acreage dedications are tabulated on Exhibit "A", Juniper Open System Well List.
4. **Ownership.** Exhibit 3A is a list of the royalty, overriding royalty and working interest owners in the wells in the original Surface Commingling Orders CTB 556 and 528 along with those wells to be added to the Orders. Exhibit 3B is the address of those owners listed in Exhibit 3A. Photocopies of the certified return receipt requested mailing material to all revenue owners in the affected lands is attached as Exhibit 3C. Once the U. S. Postal form PS Form 3811 "green cards" are returned signed or undeliverable, I will forward photocopies of those under separate cover.
5. **Schematic Diagram.** Schematic Diagrams of the CPD facilities were included with the original surface commingling applications; the CPD facilities have not changed operationally. Exhibit 5A is a plat showing the original Surface Commingling Orders and the proposed additions thereto. Exhibit 5B is a plat showing well names and lease names and boundaries.
6. **Lease Use Gas.** Each well has a pumping unit that uses approximately 2.0 MCFD of lease use gas and a separator that uses approximately 0.5 MCFD of lease use gas. When and if additional equipment is added to the system, such as a natural gas compressor, lease use gas to operate such equipment will be split equally between producing wells upstream of such equipment.
7. **Mechanical Integrity.** The main line portion of Applicant's system of flow lines is a 4" diameter - 0.188" wall thickness grade B X42 steel pipe with an internal yield pressure rating of 2370 psig. This main line portion and its connections have been tested to 500 psig. The trunk lines to individual wells are 4" diameter polyethelene PE3408 SDR7 pipe with an internal yield pressure of 264 psig. These trunk lines and their connections were tested to 200 psig. The average operating pressure of Enterprise's lateral 10A3, which serves Applicant's CPD # 1 is 100 psig; the maximum allowable operating pressure is 150 psig. The average operating pressure of Enterprise's lateral 10A2, which serves Applicant's CPD #2 is 100 psig; the maximum allowable operating pressure is 150 psig.
8. **Production – Gravity/BTU.** Production data is attached as Exhibit 4A. Available gas analysis reports for the wells that are to be added to Orders CTB 528 and 556 are attached as Exhibits 4B. All wells produce or will produce from the Basin Fruitland Coal formation; gas composition will not vary materially from well to well. None of the wells will produce liquid hydrocarbons.

Application for Surface Commingling

Wednesday, May 09, 2007

Page 4

9. **Allocation Formula.** All wells will have an allocation meter on location. The production assigned to each well will be the integrated volume from the CPD meter less the sum of the other allocation meters plus lease use gas. As an example, the CPD meter indicates total production of 3,325 MCF. Other well 1 allocation meter indicates 400 MCF production. Other well 2 allocation meter indicates 350 MCF production. Other well 3 allocation meter indicates 1,200 MCF production. Other well 4 allocation meter indicates 275 MCF production. The sum of these other well allocation meters is 2,225 MCF. CPD meter of 3,325 MCF less the sum of other allocation meters of 2,225 MCF plus lease use gas of 2 MCF is 1,102 MCF, the calculated production of the well in question. When the sum of the allocation meters doesn't equal the CPD meter, the gas production from each well will be calculated according to the volume its allocation meter indicates was produced divided by the sum of all of the allocation meters (percent) multiplied by the CPD meter indicated production plus lease use gas. As an example, the CPD meter indicates an integrated volume of 40,000 MCF gas was produced but the sum of the allocation meters indicate that 39,000 MCF was produced. The allocation meter of the well in question indicates 10,000 MCF of production divided by the sum of the allocation meters (39,000 MCF) equals 25.64% multiplied by the CPD meter volume of 40,000 MCF equals 10,256 MCF plus lease use gas of 60 MCF totals 10,316 MCF, the calculated production of the well in question. To the extent that the wells covered by this Application for Surface Commingling are drilled on or communitized with Navajo Allotted Leases, Applicant will allocate the gas production and sales according to the Guidelines for Surface Commingling and / or Off-lease Sales, Storage, Usage and Measurement for Navajo Allotted Leases. Royalties will be paid on the volumes according to applicable MMS guidelines.
10. **Line Purging.** It is anticipated that line purging will occur infrequently. Any lost gas due to purging the system will be allocated equally to each of the wells.
11. **Purged Fluids.** Any fluids purged will be natural gas and condensed water vapor.
12. **Meter Calibration Schedule.** Enterprise will calibrate the CPD meter at least once each quarter, more frequently with higher gas volumes. Coleman will calibrate the allocation meters semi annually.
13. **Gas Analysis Schedule.** Enterprise will analyze the gas from the commingled stream at least twice a year, more frequently with higher gas volumes.
14. **Effective Date.** It is requested that the effective date of the additions to Surface Commingling Orders CTB-556 and CTB 528 as contemplated herein be the first day of the next month following the commencement of gas production.

Wednesday, May 09, 2007

AROC (Texas) Inc
110 Cypress Station, Suite 220
Houston, TX 77090

Ladies and Gentlemen:

Please be advised that Coleman Oil & Gas, Inc. has filed an Application for Surface Commingling Basin Fruitland Coal production on wells located on the lands described below. You apparently own a revenue interest in one or more of these wells. As a revenue interest owner you are entitled to this notice of the proposed action. If you have any comments regarding the proposal you have twenty (20) days from the date the New Mexico Oil Conservation Division (OCD) receives the Application to register those comments with the OCD. These lands and the wells located thereon will be added to either existing OCD Commingling Order CTB 528 or CTB-556. A copy of the Application and related material is enclosed for your reference.

Wednesday, May 09, 2007

John Oakason Trust
Well Fargo Bank
MC C7300-07D
1700 Lincoln Street, 7th Floor
Denver, CO 80203

Attention: Mr. Travis Heringer

Ladies and Gentlemen:

Please be advised that Coleman Oil & Gas, Inc. has filed an Application for Surface Commingling Basin Fruitland Coal production on wells located on the lands described below. You apparently own a revenue interest in one or more of these wells. As a revenue interest owner you are entitled to this notice of the proposed action. If you have any comments regarding the proposal you have twenty (20) days from the date the New Mexico Oil Conservation Division (OCD) receives the Application to register those comments with the OCD. These lands and the wells located thereon will be added to either existing OCD Commingling Order CTB 528 or CTB-556. A copy of the Application and related material is enclosed for your reference.

CERTIFIED RETURN RECEIPT REQUESTED
7006 0100 0007 2049 0169

Wednesday, May 09, 2007

North American Petroleum Corporation USA
1401 17th Street, Suite 310
Denver, CO 80202

Ladies and Gentlemen:

Please be advised that Coleman Oil & Gas, Inc. has filed an Application for Surface Commingling Basin Fruitland Coal production on wells located on the lands described below. You apparently own a revenue interest in one or more of these wells. As a revenue interest owner you are entitled to this notice of the proposed action. If you have any comments regarding the proposal you have twenty (20) days from the date the New Mexico Oil Conservation Division (OCD) receives the Application to register those comments with the OCD. These lands and the wells located thereon will be added to either existing OCD Commingling Order CTB 528 or CTB-556. A copy of the Application and related material is enclosed for your reference.
