Re: Exception location
Connie 28-3
Escrito Field
Rio Arriba County, New Mexico

Dear Mr. Ramey:

Because the previous request for an exception location was incomplete, GRACE PETROLEUM intends to resubmit the enclosed data for your consideration.

We request an exception location for a Gallup formation oil well in the NW $\frac{1}{4}$ NW $\frac{1}{4}$ of Section 28, T24N-R7W, Rio Arriba County, New Mexico. The location requested is located 200' FNL and 230' FWL in the aforementioned section. This location is the closest location available to the original because of an archeological site and the rough terrain in the area of the originally proposed location @ 330' FNL and 490' FWL.

Attached are the letters sent to the offset operators by certified mail, the topographic maps showing the terrain, a plat of offset ownership, and the archeologists' report.

If further documentation or any other problem arises, please contact the undersigned.

Yours truly,

GRACE PETROLEUM CORPORATION

Ben Stromberg, Jr.

Re: Exception location
NWNW Sec. 28-T24N-R7W
Rio Arriba County, New Mexico

Dear Mr. Lee:

Because the state of New Mexico requires offset operator be sent notification by certified mail for an exception location, we are once again requesting an exception location on the above mentioned location.

The exact location is 200' FNL and 230' FWL NWNW Sec. 28-T24N-R7W, Rio Arriba County, New Mexico. As stated in our previous correspondence, the location was moved because of archaeological reasons and to avoid extremely rough terrain in the immediate area.

If you have no objections please sign below and return one copy to GRACE PETROLEUM CORPORATION, above address and send one copy to the New Mexico Oil Conservation Commission, Box 2088, Santa Fe, New Mexico 87501, attention: Joe D. Ramey.

Supron Energy Corporation

Should you have additional questions or comments, please contact the undersigned.

Proposed Well: GRACE PETROLEUM - CONNIE 28 - 3

Land Status: Bureau of Land Management.

Location: The proposed location is in the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of the NW $\frac{1}{4}$ of Section 28, Township 24 North, Range 7 West, N.M.P.M., Rio Arriba County, New Mexico. The well will be 200 feet from the north line and 230 feet from the west line of Section 28. (Figure 2)

U.T.M.: Center - 13; 2,67,700 mE; 40,19,100 mN.

Access: 20 feet wide and 3700 feet long, approaching the location from the north and east.

Area Surveyed: 3.76 acres.

Terrain: Terrace top with easterly drainage, alluvial surface deposits, and sandstone outcrops.

Soil: Sandy clayey loam.

Vegetation: Piñon, juniper, sagebrush, saltbush, snakeweed, indian paintbrush, galleta, grama, prickly pear.

Cultural Resources: Site SJC-537 was found on the original well location. The well stake was moved 130 feet north and 260 feet west to completely avoid the site.

Recommendations: With the relocation of the well stake, archaeological clearance is recommended.

Re: Application for Non-Standard
Location: Grace Federal 28 No. 3,
Sec. 28, T-24-N, R-7-W, Rio
Arriba County

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases. The ownership is not clearly shown on the plat submitted.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location. The plat submitted is of such a scale as to be useless for this request. A sketch map on Form C-102 would be appropriate.
- Other: Please show the pool and/or formation name. A copy of the archeologist's report should be submitted.

Very truly yours

R. L. STAMETS
Technical Support Chief

Re: Exception Location
Lybrook Field
Rio Arriba County, New Mexico

Dear Mr. Ramey:

Grace Petroleum Corporation requests that a location exception be granted for a well in the NWNW of Section 28, T24N-R7W, Rio Arriba County, New Mexico. The well is located 200' FNL and 230' FWL which is the only spot available because of the extremely rough terrain and an archaeological site at the original location. The original location was 330' FNL and 490' FWL.

Attached are letters that were sent to offset operators advising the operators of our proposed location. A topo map is also included as per state regulations.

If you would, please examine this request and advise the undersigned of future requirements.

Yours truly,

GRACE PETROLEUM CORPORATION

Re: Exception location
NWNW Sec. 28-T24N-R7W
Rio Arriba County, New Mexico

Dear Sir:

Grace Petroleum Corporation has staked a location in the above mentioned area of New Mexico. The exact location is 200' FNL, and 230' FWL. The location is an exception location as the spot is too close to a lease line. The well was originally staked approximately 200' SE of the present location, but was moved when an archaeological survey revealed Navajo ruins. The present location had to avoid this site and conform to the rugged terrain of the area.

If you have any objections to this location, please contact the undersigned or the New Mexico Oil Conservation Commission.

If there are any questions, please advise.

Yours truly,

GRACE PETROLEUM CORPORATION
