Re: Request for Administrative Approval to  
Drill Southeast Maljamar Grayburg-San  
Andres Unit Tract 6 Well No. 7, Malja-  
mar (G-SA) Pool, Lea County, New Mexico

Gentlemen:

Cities Service Company, as operator of the Southeast Maljamar Grayburg-San Andres Unit, a secondary project, respectfully requests Administrative approval to drill, at a non-standard location, the following oil well:

Tract 6 Well No. 7, Unit K, 1455'FSL & 1330'FWL of  
Section 29-T17S-R33E, Lea County, New Mexico.

The proposed total depth of this well is estimated at 4350'. The proposed casing program is as follows:

HOLE SIZE	CSG. SIZE	WEIGHT	SETTING DEPTH	CEMENT	EST. T OF C
12-1/4"	8-5/8"	24#	1300'	650	Circulated
7-7/8"	5-1/2"	17#	3900'	2000	2300'
4-5/8"	4"(Liner)	9.5#	3700-4350'	75	3750'

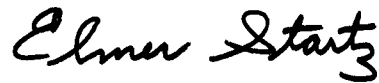

This well is being drilled to replace the void left by the plugging and abandonment of Southeast Maljamar Grayburg-San Andres Unit Tract 6 Well No. 5. As shown on the attached plat, Cities Service Company is the only offset operator since this well is located well within the boundaries of the Southeast Maljamar Graybury-San Andres Unit.

Due to the availability of a rotary rig within a week to ten (10) days your

prompt consideration of this request will be greatly appreciated.

Very truly yours,

CITIES SERVICE COMPANY
