Dear Mr. R. L. Stamets;

U. S. Operating, Inc. desires to move its location for the subject well from a regular location of 1980' from the North Line and 1980' from the East Line of Section 21; T-23-S; R-34-E; to a location being 1480' from the East Line and 1980' from the North Line of the same section.

The regular location is 150' West of a bladed caliche road known as Miller Ranch Road, and lies 200' South of the top of a 5' knoll. As this is a 14,100' Morrow test, there is not enough area between the regular location and the edge of the caliche road to raise the derrick on the drilling rig.

Copies of this letter with attachments have been sent by certified mail to the offset operators listed on Attachment No. 1.

Sincerely,

Adam Praisnar, Jr.
Drilling Superintendent
