RE: Administrative Approval of Unorthodox Location  
San Juan 30-4 Unit # 28C  
320' FNL, 1615' FEL  
Section 31, T30N, R4W  
Rio Arriba County, New Mexico

Dear Mr. Brooks:

Energen Resources Corporation (Energen) hereby requests Administrative Approval for an Unorthodox Location of its San Juan 30-4 Unit # 28C Mesaverde formation Well under the provisions of New Mexico Oil Conservation Division Blanco Mesaverde Pool rules.

This well is located 320' FNL & 1615' FEL of Section 31-T30N-R4W, Rio Arriba County, New Mexico and is dedicated to a spacing unit consisting of the E/2 of Section 31, in the Blanco Mesaverde gas pool.

This well is located closer than 660' from the northern proration unit boundary by 340'. This is due to the location having to be in the E/2NE/4 as it is the fourth well in this proration unit. A standard location is not available due to the topography of this area and archeological concerns. A directional well is not feasible due to the Mesaverde well being air drilled and an air drilling environment would destroy the directional tools.

A copy of this application is being sent to all affected owners by certified mail-return receipt requested with a request that they furnish your office in Santa Fe a Waiver of Objection within twenty (20) days of receipt of this application.

Attached is a well location plat showing dedicated acreage (C102), a plat showing the offsetting spacing units and Mesaverde formation wells, and a topographic map.

Your favorable consideration of this request would be appreciated.

Sincerely,

David M. Poage  
District Landman
