Re: Application for Unorthodox Location
Tenneco Childers #1
Proposed Dakota Well
420 FNL, 1660 FWL
Sec. 1, T31N, R11W
San Juan County, New Mexico

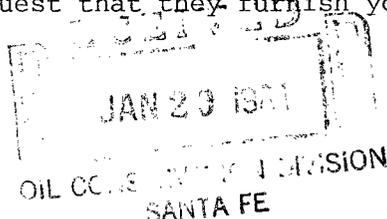

*NSL-1320
Rule 3 R-1670
2-22-81
Basin Dakota Gas*

Gentlemen:

Attached in duplicate (to each office) are a well location plat C-102 with a sketch of the surrounding topography and an ownership plat for the above captioned well.

The proposed site of the Childers #1 has been relocated from 2060 FNL, 840 FWL at the request of the Bureau of Land Management. The original location would have required a lengthy, difficult to construct and maintain access road into an otherwise undisturbed canyon. Placement of the location on the mesa top at the head of this canyon was requested. Due to existing facilities and topography, the best place to locate this well is 420 FNL, 1660 FWL. This places the well only 420 feet from the northern section boundary.

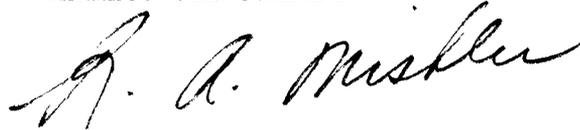

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to authority of Rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.

Yours very truly,

TENNECO OIL COMPANY

Newberry BLE
730 FSL, 1190 FWL, Sec. 35, T32N, R12W
San Juan County, New Mexico

Gentlemen:

Attached in duplicate to each office are a well location plat with a sketch of the surrounding conditions and an ownership plat for the above captioned Dakota infill well.

The Newberry BLE has been staked four times in an effort to find a suitable location. Due to existing facilities and topography it became necessary to locate this well at its present position. The new location is only 730 feet from the south section boundary.

A copy of this application is being sent to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.
