Gentlemen: *Provided however, that during recompletion operation Amoco shall place cement across the Graybury-San Andres interval in accordance with the opposite the production casing in said State G Well No 6. Each gunnulus cannot serve as an avenue of escape for injected fluids in the Hobbs Pool*  
Amoco Production Company requests administrative approval of an unorthodox location which will result from the recompletion of our State G Well No. 6 from the Hobbs Blinebry to the Hobbs Drinkard. The well location, 1980' FNL and 1650' FWL of Section 33, T-18-S, R-38-E, Lea County, New Mexico, is currently classified as an orthodox location for the Blinebry, the original completion horizon.

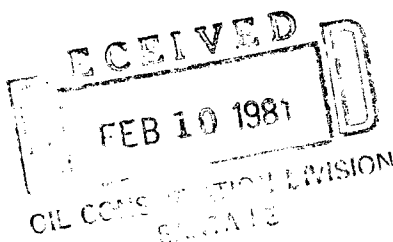

Attached is a revised form C-102 showing the 80 acres dedicated to the Drinkard and a copy of the request for waivers from offset operators.

Yours very truly,
