Was a Watercourse Reached?		If YES, Volume Impacting the Watercourse.			
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No					
If a Watercourse was impacted, describe Fully*					
Describe Cause of Problem and Remedial Action Taken.*					
Water dump valve failed causing all fluids to go to the oil tank causing the oil tank to run over.					
Describe Area Affected and Cleanup Action Taken.*					
Spill was mostly inside berm area but a little ran out onto 3 rows of cotton field. All free fluid was picked up and remaining was dusted in to prevent runoff.					

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
